

Four State Regional Technology Conference

Pittsburg State University/Kansas Technology Center
November 12-13, 2009

2009 Exhibits Floor Plan*

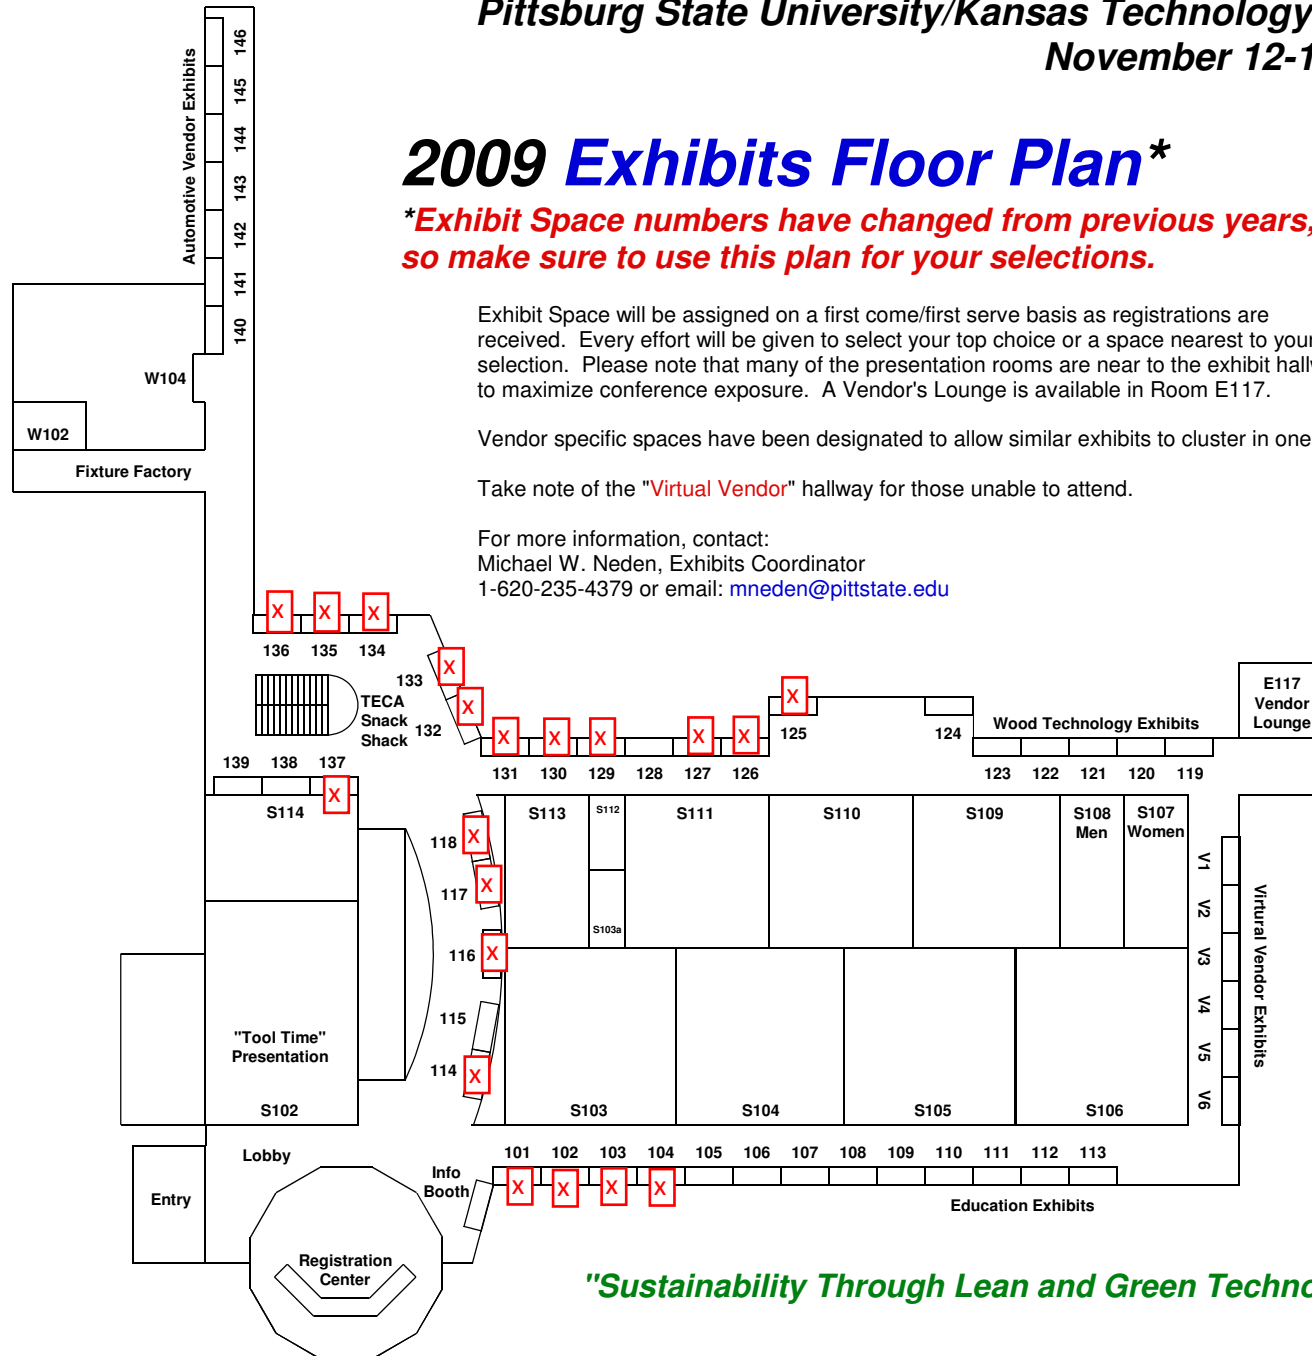

**Exhibit Space numbers have changed from previous years, so make sure to use this plan for your selections.*

Exhibit Space will be assigned on a first come/first serve basis as registrations are received. Every effort will be given to select your top choice or a space nearest to your selection. Please note that many of the presentation rooms are near to the exhibit hallways to maximize conference exposure. A Vendor's Lounge is available in Room E117.

Vendor specific spaces have been designated to allow similar exhibits to cluster in one area.

Take note of the "Virtual Vendor" hallway for those unable to attend.
