2016 Annual Security Report

OVERVIEW

The University Police prepares the Annual Security Report to comply with the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act. The full text of this report can be located at the University Police web site at <http://www.pittstate.edu/office/police/>. This report is prepared in cooperation with the local law enforcement agencies with jurisdiction encompassing the main campus, those with jurisdiction over alternate sites, the Director of Student Rights and Responsibilities, the Department of University Housing, and the division of Student Life. Each entity provides updated information on their educational efforts and programs to comply with the Act.

Campus crime, arrest and referral statistics include those reported to the Pittsburg State University Police, designated campus officials (including but not limited to directors, deans, department heads, designated university housing staff, the university office of student rights and responsibilities, advisors to students/student organizations, athletic coaches), and local law enforcement agencies. The Act requires colleges and universities to report the three previous years' statistics for:

1. Certain criminal offenses (murder, non-negligent manslaughter, manslaughter by negligence; rape; forcible fondling; incest; statutory rape; robbery; aggravated assault; burglary; motor vehicle theft; arson; dating violence; domestic violence; and, stalking);
2. Hate crimes (any of the above mentioned offenses, and any incidents of Larceny-Theft, Simple Assault, Intimidation, and Destruction/Damage/Vandalism of Property, and of other crimes involving bodily injury to any person, in which the victim is intentionally selected because of the actual or perceived race, gender, religion, national origin, sexual orientation, gender identity, ethnicity, or disability of the victim); and,
3. Arrests and referrals for disciplinary action for drug, alcohol, and weapons violations.

Compliance with the Clery Act also requires colleges and universities to:

1. Publish an Annual Security Report (ASR)
2. Maintain a daily crime log available to the public
3. Issue timely warnings about crimes which may pose a serious or ongoing threat to the campus community
4. Devise an emergency response, notification and testing policy
5. Compile, report and publish annual fire safety report
6. Establish policies and procedures to handle reports of missing students

Kansas law requires prompt, mandatory reporting to the local law enforcement agency by health care practitioners (such as those at Student Health Services) when they provide

medical services to a person they know or reasonably suspects is suffering from wounds inflicted by a firearm or is a result of assaultive or abusive conduct. University Counseling staff inform their clients of the procedures to report crime to the University Police on a voluntary or confidential basis, should they feel it is in the best interest of the client.

Each year, an e-mail notification is made to all enrolled students that provides the web site to access this report. Faculty and staff receive similar notification. Copies of the report may also be obtained at the University Police Department located at Shirk Annex (lower level) or by calling (620) 235-4624. All prospective employees may obtain a copy from Human Resources in Russ Hall 204 or by calling (620) 235-4191, and the web site address will be included in confirmation correspondence sent to employment applications.

LAW ENFORCEMENT AUTHORITY OF UNIVERSITY POLICE

PSU police officers are commissioned by authority of the State of Kansas under K.S.A. 76-726 and have the same law enforcement powers and responsibilities as the local police or sheriff in your home community. The officers are trained at the Kansas Law Enforcement Training Center and additionally are required to complete 40 hours of annual retraining to maintain state certification.

The Pittsburg State University Police Department provides several service-oriented functions to the University community consisting of nearly 8,000 students, faculty and staff. The University Police provides 24-hour-a-day patrol protection to the campus, PSU Foundation property, parking lots, residence halls, as well as the fraternities and sororities.

Officers are responsible for a full range of public safety services, including all crime reports, investigations, medical emergencies, fire emergencies, traffic accidents, enforcement of laws regulating underage drinking, the use of controlled substances, weapons, and all other incidents requiring police assistance.

University Police prepare and submit Standard Offense reports to the Kansas Bureau of Investigation in which all law enforcement departments in the state have access. As a courtesy, University Police shares information on arrests and serious crimes with the City of Pittsburg Police. The serial numbers of all vehicles and office equipment stolen from campus are reported nationwide through the National Crime Information Center (NCIC).

Pittsburg State University Police have complete police authority to apprehend and arrest anyone involved in illegal acts on-campus and areas immediately adjacent to the campus. If a University student commits minor offenses involving University rules and regulations, the campus police may also refer the individual for disciplinary action by the university. The prosecution of all criminal offenses, both felony and misdemeanor, are conducted at either municipal court for the City of Pittsburg or District Court for Crawford County, KS.

University Police and other law enforcement agencies:

University Police have concurrent jurisdiction on campus with city, county, and state law enforcement agencies. Outside agencies perform duties on university property only at the request of the University Police.

University Police personnel work closely with local, state, and federal police agencies and have direct radio communication with the City of Pittsburg Police and the Crawford County Sheriff's department. University Police is also a part of the Crawford County 911 Emergency System.

By mutual agreement with state and federal agencies, University Police maintain a NLETS terminal (National Law Enforcement Telecommunications System). Through this system police personnel can access the National Crime Information Computer system as well as the Kansas Information Enforcement System. These computer databases are used for accessing criminal history data, driver/vehicle identification information, as well as other local, state and federal law enforcement information.

University Police and off-campus locations of student organizations officially recognized by the institution:

The City of Pittsburg officially recognizes the University Police jurisdictional boundaries as those established as part of the university overlay district. For more specific information on the established boundaries, please contact University Police and Parking Services, (620) 235-4624.

The University Police and the City of Pittsburg Police have also agreed to a policy whereby both departments will respond to calls for police service at specific off-campus properties. The properties in question are those owned or controlled by student organizations with off-campus housing facilities.

DAILY CRIME/FIRE LOGS

University Police maintains a Daily Crime and Fire Log. The log provides information on any crime and/or fire that occurred on campus, in a non-campus building or property, on public property, or within the established jurisdiction of the campus, was reported to the department, and where an official police report was taken. This log includes: the nature, date and time (for both when the incident occurred and when it was reported), general location of each incident, the disposition of the complaint, if known, and the estimated loss amounts. The log does not include names or specific locations, such as residence hall room numbers. The log is maintained in hard-copy and located in Dispatch at the University Police and Parking Services 1501 S. Joplin Street, where it can be viewed during normal business hours (8 a.m. to 4:30 p.m.). Staff and students are sent direct notifications informing them of the existence of the crime/fire log and its location.

Community members, students, faculty, staff, and guests are encouraged to report all crimes and public safety related incidents to the University Police in a timely manner. If the reporting party requests confidentiality or asks that the complaint not be pursued, the

University will take all reasonable steps to investigate and respond to the complaint consistent with the request for confidentiality or request not to pursue an investigation. If a reporting party insists that his or her name or other identifiable information not be disclosed to the alleged perpetrator, the University's ability to respond may be limited.

Should the criminal or external proceedings be dismissed, or reduced, the University may continue to pursue disciplinary action.

With your permission, the Director of University Police (or designee) or the Director of Student Right and Responsibilities can file an incident report on the details of the incident without pursuing action. With such information, the University can keep an accurate record of the number of incidents involving students, determine where there is a pattern of crime with regard to a particular location, method, or assailant, and alert the campus community to potential danger. In 2015-2016, the University acquired a student conduct software management system called Maxient. This new conduct system began the implementation process in September of 2015 and went fully live in January, 2016. The purpose of this software was to streamline to process of communication with students, maintain an electronic filing cabinet of accused students, and to offer an opportunity to members of the university community to complete electronic, anonymous if desired, reporting of suspicious or unusual behavior.

This annual security report contains information about on-campus and off campus resources. That information is made available to provide Pittsburg State University community members with specific information about the resources that are available in the event that they become the victim of a crime. The information about these resources is not provided to infer that those resources are “reporting entities” for Pittsburg State University.

Enforcement of orders or similar lawful orders issued by a court:

Any member of the campus community who has been the victim of an crime resulting in issuance of an order of protection, no contact, restraining, or any similar type order issued by the courts (criminal, civil, or tribal) must notify University Police Department (Shirk Hall Annex, Lower Level, 620 235-4624) and provide the Director of University Police and Parking Services (36 Shirk Hall Annex) with a copy of such order.

EMERGENCY RESPONSE

The University’s Critical Incident/Crisis Response Management Operations Plan includes information about Incident Teams, University operating status parameters; incident priorities and performance expectations; shelter-in-place and evacuation guidelines; emergency operations center plans; notification procedures; notification; crisis communication; and local contingency and continuity planning requirements. The University participates in emergency response exercises, such as tabletop exercises, field exercises, and tests of the emergency notification systems on campus. These tests are

designed to assess and evaluate the emergency plans and capabilities of the institution.

University Police officers and supervisors, university administrators, and physical plant staff and supervisors have received training in Incident Command and Responding to Critical Incidents on Campus. When a serious incident occurs that causes an immediate threat to the campus, the first responders to the scene are usually the University Police, the City of Pittsburg Police, the Pittsburg Fire Department, and the Crawford County Emergency Medical Services, and they typically respond and work together to manage the incident. Depending on the nature of the incident, other jurisdictions and other local or federal agencies could also be involved in responding to the incident.

General information about the emergency evacuation or shelter in place procedures for Pittsburg State University are posted in each facility and are available on the Pittsburg State University web site safety page at <http://www.pittstate.edu/info/safety>. A public version of the Critical Incident/Crisis Response Management Operations Plan and related emergency policies are available at <http://www.pittstate.edu/office/president/policies.dot>. All members of the university community are notified on an annual basis that they are instructed to notify the University Police Department or the Vice President for Student Life of any situation or incident on campus that involves a significant emergency or dangerous situation that may involve an immediate or ongoing threat to the health and safety of students and/or employees on campus. The University Police has the responsibility of responding to, and summoning the necessary resources, to mitigate, investigate, and document any situation that may cause a significant emergency or dangerous situation. In addition, the University Police has a responsibility to respond to such incidents to determine if the situation does in fact, pose a threat to the community. If that is the case, federal law requires that the institution immediately notify the campus community or the appropriate segments of the community that may be affected by the situation.

TIMELY WARNING NOTIFICATION

University Police and PSU have policies and procedures in place to immediately notify the campus community upon confirmation of a significant emergency or dangerous situation involving an immediate threat to the health and safety of students or staff occurring on campus (unless notification will compromise efforts to contain the emergency).

In the event that a situation arises, either on or off campus, that, in the judgment of the Vice President for Student Life or Director of University Police, constitutes an ongoing or continuing threat, a campus wide “timely warning” will be issued. Such warning will be provided to the campus community in a manner that is timely and withholds the names of victims as confidential. Notification systems utilized may include text messaging, an automated group phone dialing message system, a desktop notification to computers connected to the university intranet system via active directory, a bulk E-Mail system, and the university web site home page. University Police also maintains, updates and provides information via Facebook and Twitter social networking sites.

Depending on the particular circumstances of the crime, at the direction of University Police, the Office of University Marketing and Communications may also post a notice on the university web site home page (www.pittstate.edu). Anyone with information warranting a timely warning should report the circumstances to the University Police office, by phone at (620) 235-4624 or in person at the University Police dispatch center within Shirk Annex (lower level).

MISSING PERSON POLICY AND PROCEDURE

Under federal law, each student living in university owned housing (residence halls) is provided the option to identify and confidentially register an individual to be contacted within 24 hours of a determination by University Police that the student is a missing person. Students have the ability to name such person when completing their housing and dining contract for the academic year. Students who want to make changes to their missing person information can contact the University Housing office, 209 Horace Mann. (For students under 18 years of age, the university is required by law to contact the custodial parent).

The University Police is the official notification agency for persons believed to be missing within the residence hall community and that students believed by University Housing staff to be missing will be reported to University Police within 24 hours of the determination that they may be missing. If University Police is notified and determine the person who is subject of a missing person report has been missing the confidential contact will be notified. Non-emancipated students under the age of 18 will have their parents contacted in the event that they are determined to be missing regardless of whom they might list as a confidential contact. University Housing staff will contact University Police in the event of any report of missing person within their living area and then will be instructed to contact the supervisory chain of command within University Housing immediately.

CAMPUS SAFETY AND FACILITY SECURITY

Pittsburg State University Police control access to university facilities. After-hours access to academic buildings is allowed only to personnel authorized to have access. All departments are encouraged to develop and use a building pass procedure to authorize after hour access to facilities by students. The University Housing Office maintains a 24-hour lock-up policy for all residence halls. Officers make periodic building checks of residential housing facilities after 10 p.m. The University Police Department works closely with the University Physical Plant to maintain appropriate security of key inventory.

During business hours, the University (excluding residence halls) will be accessible to all students, parents, employees, contractors, visitors and university guests. During non-business hours or during periods of extended closing, access to all university facilities is

by key, if issued, or by admittance via the University Police or University Housing staff.

Residence halls are secured 24 hours a day. Over extended breaks, the doors of all halls will be secured around the clock, and will be equipped with a lock separate from the regular key issued to resident students. Some facilities may have individual hours, which may vary at different times of the year. Examples are the Student Recreation Center, the Axe Library, and the Overman Student Center. In these cases, the facilities will be secured according to schedules developed by the department responsible for the facility. Emergencies may necessitate changes or alterations to any posted schedules. Surveillance cameras are in place in key areas of the campus and within certain facilities. Images captured by these cameras are stored digitally and monitored by University Police dispatch personnel.

Security considerations used in the maintenance of campus facilities:

The Physical Plant maintains the university buildings and grounds with a concern for safety and security. Staff inspect campus facilities regularly, promptly make repairs affecting safety and security, and respond to reports of potential safety and security hazards, such as broken windows and locks. The University Police assists Physical Plant personnel by reporting potential safety and security hazards. Students, as well as faculty and staff, may also call the Physical Plant at (620) 235-4779 to report any safety or security hazards.

Areas that are revealed as problematic have security surveys conducted of them. These surveys examine security issues such as landscaping, locks, alarms, lighting, and communications. Administrators from Academic Affairs, Administration and Finance, Student Life, Physical Plant, University Housing, University Police, and other concerned areas review these results.

Campus security procedures and practices:

The university is a community that consists of nearly 8,000 students, faculty, staff, visitors, and guests who interact on a daily basis. As in virtually all communities, public safety, crime and the loss of property are of continual concern.

The University Police Department has primary responsibility for the safety and security of the university community. This task is one that they cannot accomplish alone. Crime prevention and security awareness are self-serving responsibilities. University Police need the assistance and cooperation of every student, faculty and staff member. As a member of the University community, you have a special relationship with the institution. As a property owner, you have a monetary interest to protect. We encourage you to join us to help stop crime.

The Pittsburg State University Police Department is available to present programs on how to be responsible for your security, as well as the security of others. Programs are

presented upon request. Additionally, these programs are presented for residence hall staff pre-service and in-service training as well as to Freshman Experience sections.

These general areas are the topics covered:

1. What To Do If You Are The Victim Of A Crime
2. Personal Safety - on and off campus
3. How To Secure Your Property
4. Fire Alarms - evacuation and safety
5. Timely Notification of Appropriate Staff
6. Active Shooter Training – Alert, Lockdown, Inform, Counter, Evacuate (ALICE)

A common theme of all awareness and crime prevention programs is to encourage students and employees to be aware of their responsibility for their own security and the security of others.

When time is of the essence, information may be released to the university community through text messaging, an outdoor voice notification system, an automated group phone dialing message system, a desktop notification to computers connected to the university intranet system via active directory, a bulk E-Mail system, and the university web site home page. University Police also maintains, updates and provides information via Facebook and Twitter social networking sites.

The Pittsburg State University Police Department sponsors programs on crime prevention. Additionally scheduled and unscheduled security surveys are conducted with the goal of providing recommendations for improvement in lighting needs, landscaping and procedural changes.

The main goal is to prevent crime before it happens using the following general areas:

1. Auto Safety - theft prevention and security
2. Bicycle Security - safety and security measures
3. Key Control - room and building security
4. Operation Identification - property engraving/recording
5. Crime Awareness Programs - prevent becoming a victim

The Department actively participates in student programs on alcohol awareness, sexual assault awareness and campus safety. University Police Officers serve on university committees in these areas.

Crime Prevention Programs on personal safety and theft prevention are also sponsored by various campus organizations throughout the year. University personnel facilitate programs for student, parent, faculty, and new employee orientations, student organizations, community organizations, in addition to programs for University Housing Resident Assistants and residence hall students providing a variety of educational strategies and tips on how to protect themselves from sexual assault, theft and other crimes.

- **Providing alcoholic liquor to people underage can be punished with a minimum fine of \$200 and a maximum of \$1,000 and/or up to six months in jail. Additional Kansas and local statutes include:**
- **Prohibition of possession and consumption of cereal malt beverage in any vehicle unless in original unopened container, locked trunk, or exclusive possession of a passenger in a van. Privileges and/or suspension of license may be adjudicated.**
- **Prohibition of consumption or possession of opened cereal malt beverage container on any public street, avenue, alley or sidewalk. Violations are punishable by fine or imprisonment.**

Laws regarding the possession, sale, consumption, or furnishing of alcohol is controlled by the Kansas Department of Alcohol and Beverage Control (ABC). Such laws are strictly enforced by the University Police. Underage possession and/or consumption of

alcoholic beverages is not permitted on property owned or controlled by the University. Intentionally or knowingly selling, or intentionally or knowingly "furnishing" alcoholic beverages to persons under the age of 21, or to persons obviously intoxicated, is not permitted on property owned or controlled by the University.

The Pittsburg State University campus has been designated "Drug free" and only under certain circumstances is the consumption of alcohol permitted. Violators are subject to University disciplinary action, criminal prosecution, fine and imprisonment. It is a violation of the Pittsburg State University Alcohol Policy for anyone to consume or possess alcohol in any public or private area of campus without prior University approval. Organizations or groups violating alcohol/substance policies or laws may be subject to sanctions by the University.

Drug Policy:

It is the policy of Pittsburg State University that its workplace shall be free from the illegal use, possession, or distribution of controlled substances (as defined in the Controlled Substances Act, Chapter 13, Title 21 of the United States Code) by the officers and employees of the University, including faculty, other unclassified staff, classified staff, and student employees. Any officer or employee of the University, found to be illegally using, possessing or distributing controlled substances at the workplace of the University, regardless of the site of the workplace, shall be subject to disciplinary action in accordance with applicable policies of the State of Kansas, the Board of Regents, and Pittsburg State University. Officers and employees are reminded that illegal use, possession, or distribution of controlled substances may also subject individuals to criminal prosecution.

The term controlled substances as used in this policy means those substances included in Schedule I and II, as defined by section 802(6) of Title 21 of the United States Code, the possession of which is unlawful under Chapter 13 of that Title. The term does not include the use of a controlled substance pursuant to a valid prescription or other uses authorized by law.

1. The manufacture, distribution, sales, use, offer for sale, or possession of drugs, narcotics, other controlled substances or drug paraphernalia in accordance with state statutes is prohibited on campus.
2. Pittsburg State University policies pursuant to the requirements of the Drug-Free Workplace Act of 1988 and the Drug-Free Schools & Community Act Amendments of 1989 are found in the section following this Code of Student Rights and Responsibilities

ALCOHOL AND DRUG EDUCATION PROGRAMS

SEXUAL MISCONDUCT AND RELATIONSHIP VIOLENCE

Pittsburg State University prohibits all forms of sexual misconduct and relationship violence to include rape, acquaintance rape, domestic violence, dating violence, sexual assault and stalking.

Victims of sexual misconduct or relationship violence may choose for the investigation to be pursued through the criminal justice system and/or the university discipline process. University personnel will assist in the report process if requested by the victim. A representative from the University Police, the Office of Student Rights and Responsibilities, and/or the Office of Institutional Equity will guide the victim through the available options and support the victim in his or her decision. While the university will investigate the complaint and may pursue appropriate discipline action with or without the victim's consent, discussing a matter of sexual assault with a university official does not compel the victim to participate actively in pursuing disciplinary charges. As a victim, the individual has the option to decline to notify law enforcement or campus authorities.

Definition of Terms

Sexual Misconduct: Any unwelcome behavior of a sexual nature that is committed without consent or by force, intimidation, coercion, or manipulation. Sexual misconduct can occur between persons of the same or different sex and is represented by a continuum of conduct from forcible rape and sexual assault to nonphysical forms of pressure that compel individuals to engage in sexual activity against their will. It includes any physical contact of a sexual nature that is committed either by force, coercion, intimidation, or manipulation or through the use of a person's mental or physical incapacity, including incapacitation caused by the use of drugs or alcohol.

Consent: A freely and affirmatively communicated willingness to participate in sexual activity, expressed either by words or clear, unambiguous actions. It is the responsibility

of the initiator of the sexual activity to ensure he or she has the other person's consent to engage in sexual activity. Consent must be present throughout the sexual activity by all parties involved. At any time, a participant can communicate that he or she no longer consents to continuing the activity.

Consent may never be—

- obtained through the use of force, coercion, intimidation, or manipulation or if the victim is mentally or physically disabled or incapacitated, including through the use of drugs or alcohol, or,
- assumed because of the existence of a dating relationship between the persons involved or due to the existence of a current or previous sexual relationship between the persons.

Dating Violence: Violence that occurs between individuals who are in a dating relationship. For the purposes of this definition, "dating relationship" means a social relationship of a romantic nature. In addition to any other factors the university may consider the following when making a determination of whether a relationship exists or existed: Nature of the relationship, length of time the relationship existed, frequency of interaction between the parties and time since termination of the relationship, if applicable.

Sexual Assault: Includes any physical contact of a sexual nature that is committed either by force, coercion, intimidation, or manipulation or through the use of a person's mental or physical incapacity, including incapacitation caused by the use of drugs or alcohol.

The following definitions, adapted from Kansas Statutes, are used by university personnel when conducting an investigation of sexual misconduct. To access the original statute, please refer to http://kslegislature.org/li/b2013_14/statute/.

Domestic Violence (K.S.A. 21-5111): The act or threatened act of violence against a person with whom the offender is involved or has been involved in a dating relationship, or an act or threatened act of violence against a family or household member by a family or household member. Domestic violence also includes any other crime committed against a person or against property, or any municipal ordinance violation against a person or against property, when directed against a person with whom the offender is involved or has been involved in a dating relationship or when directed against a family or household member by a family or household member.

For the purposes of this definition:

- A. "Dating relationship" means a social relationship of a romantic nature. Factors used to establish a "dating relationship" include:
 1. Nature of the relationship,
 2. length of time the relationship existed,
 3. frequency of interaction between the parties and,
 4. time since termination of the relationship
- B. "Family or household member" means persons 18 years of age or older who are spouses, former spouses, parents or stepparents and children or stepchildren, and

persons who are presently residing together or have resided together in the past, and persons who have a child in common regardless of whether they have been married or have lived together at any time. Family or household member also includes a man and woman if the woman is pregnant and the man is alleged to be the father, regardless of whether they have been married or have lived together at any time.

Rape (K.S.A. 21-5503):

1. Knowingly engaging in sexual intercourse with a victim who does not consent to the sexual intercourse under any of the following circumstances:
 - a. When the victim is overcome by force or fear; or
 - b. when the victim is unconscious or physically powerless;
2. Knowingly engaging in sexual intercourse with a victim when the victim is incapable of giving consent because of mental deficiency or disease, or when the victim is incapable of giving consent because of the effect of any alcoholic liquor, narcotic, drug or other substance, which condition was known by the offender or was reasonably apparent to the offender;
3. sexual intercourse with a child who is under 14 years of age;
4. sexual intercourse with a victim when the victim's consent was obtained through a knowing misrepresentation made by the offender that the sexual intercourse was a medically or therapeutically necessary procedure; or
5. sexual intercourse with a victim when the victim's consent was obtained through a knowing misrepresentation made by the offender that the sexual intercourse was a legally required procedure within the scope of the offender's authority.

Acquaintance Rape: Rape, which occurs by someone the victim knows.

Stalking (K.S.A. 21-5427): Recklessly engaging in a course of conduct targeted at a specific person, which would cause a reasonable person in the circumstances to fear for their safety, or the safety of their family. Engaging in conduct toward a specific person with knowledge that the conduct will place the person in fear for their safety or the safety of a member of their immediate family. Additionally stalking can occur after being served with, or otherwise provided notice of, any protective order which prohibits contact (personal or electronic) with the person(s) who are named in the protective order.

REPORTING SEXUAL ASSAULT/SEXUAL MISCONDUCT

Rape, acquaintance rape, domestic violence, dating violence, sexual assault and stalking are serious crimes whether the act of violence is by a stranger or someone known to the victim. The university strongly encourages and supports victims to report the crime immediately to the University Police or City Police. As an alternative, the victim may report the crime to the Director of Student Rights and Responsibilities, or a resident assistant, assistant residence hall director or area coordinator. University personnel will assist in the report process if requested by the victim. As a victim, the individual has the option to decline to notify law enforcement or campus authorities. University procedures

are designed to protect the student who has been hurt by these behaviors and to stop the offensive behavior. The due process rights of alleged offenders are protected, as well as the rights of the victim.

What to do if you are a survivor:

Go to a safe location as soon as possible. If you can find a friend to accompany you, that would be even safer. From the safe location call:

Pittsburg State University Police, (620) 235-4624
 or City of Pittsburg Police Department, (620) 231-1700
 or Crawford County Sheriff's Department, (620) 724-8274
 or Safehouse Shelter, (620) 231-8692
 or Via Christi Medical Center, (620) 231-6100
 or PSU's Title IX Coordinator, (620) 235-4189
 or PSU Director of Student Rights and Responsibilities (620) 235-4945
 or PSU Campus Victim Advocate, (620) 235-4831
 or PSU Student Life, (620) 235-4231
 or PSU Student Health Services, (620) 235-4452
 or resident assistant, assistant hall director or area coordinator (residents of halls)
 or the Crisis Hotline at 1-800-794-9148. This hotline will be available 24 hours a day, 7 days a week.
 Alternatively, you may go directly to the University Police Department, 1501 S. Joplin (open 24 hours a day, 7 days a week) or to the Via Christi Medical Center Emergency Room, 1 Mount Carmel Place

Preserving evidence for criminal offense or a protection order:

Time is of the essence. Victims should **NOT** change clothes, shower, bathe, or douche. If possible, do not go to the toilet. Save all clothing, linens, or other items that may have been touched by the assailant for the police officers who will be responsible for evidence. Do not wash clothing, linens or other items that may have been touched by the assailant. All physical evidence, including seminal fluids, hair, blood types and scrapings of flesh from the victim's fingernails will be used in prosecution of the crime.

You may request that the police investigation be conducted by a police officer of your gender (i.e. a female police officer for a female student, a male police officer for a male student) if available. As a victim of rape, acquaintance rape, domestic violence, dating violence, sexual assault or stalking, your name will not be released to the news media.

Be prepared to go to the Via Christi Medical Center Emergency Room, 1 Mount Carmel Place, and request a medical examination by the Emergency Room physician using the Sexual Assault Kit required for evidence in cases of sexual assault. This is done free of charge to the victim. You should get to the hospital as soon as it is safe and possible. The University Police or City of Pittsburg Police or Crawford County Sheriff's Deputy will be

able to arrange transportation to the hospital as soon as an assault that has taken place is reported.

A formal complaint for legal action against the assailant should be made to the County Attorney through the police (no fee will be charged). For criminal prosecution a victim has two years to file a report from the day of the crime but it should be done as quickly as possible.

In order to be eligible for compensation under the Kansas Crime Victims Compensation, the crime must be reported to the law enforcement agency where the crime was committed within 72 hours of the event unless the Crime Victims Compensation Board finds there was good cause for the failure to report. The victim must be completely cooperative with the law enforcement agency. The victim must file a claim with the Crime Victims Compensation Board within one year of the occurrence of the crime.

Services and assistance on campus and in the community:

When a victim contacts the University Police, the person is given the option of having a Sexual Assault Advocate from the Safehouse Crisis Center present during any investigation interview or evidence collection procedure. The victim of rape, acquaintance rape, domestic violence, dating violence, sexual assault, or stalking may choose for the investigation to be pursued through the criminal justice system and/or the university discipline process. University personnel will assist in the report process if requested by the victim. A representative from the University Police and/or the Office of Student Rights and Responsibilities will guide the victim through the available options and support the victim in his or her decision. As a victim, the individual has the option to decline to notify law enforcement or campus authorities.

Various counseling, victim advocacy, and support options are available from the University through the University Counseling Center, the Office of Prevention and Wellness, the Office of Student Rights and Responsibilities, and/or the Office of Institutional Equity (Title IX Coordinator). Counseling, victim advocacy, and support services in the community can be obtained through the Safehouse Crisis Center. Additionally, services are available to students through Community Mental Health of Crawford County or through Via Christi Behavioral Health Services.

Victims of rape, acquaintance rape, domestic violence, dating violence, sexual assault, or stalking have the option for and will receive assistance from the university in changing academic, living, transportation and working situations, if such accommodations are reasonably available regardless of whether the victim chooses to report the crime to campus police or local law enforcement.

University Discipline Procedures for Sexual Misconduct Cases involving students:

University disciplinary proceedings, as well as special guidelines for cases involving sexual misconduct, rape, acquaintance rape, domestic violence, dating violence, sexual assault, or stalking are detailed in Article 34 of the *Code of Student Rights and Responsibilities*, available at www.pittstate.edu/audiences/current-students/policies/rights-and-responsibilities/student-conduct-code.dot.

The *Code of Students Rights and Responsibilities* provides, in part, that such proceedings will

- provide for a prompt, fair, and impartial investigation and resolution of the allegations;
- be conducted by officials who receive annual training on the issues related to domestic violence, dating violence, sexual assault, and stalking and how to conduct an investigation and hearing process that protects the safety of victims and promotes accountability;
- will provide timely access to review information which will be used during the hearing;

- provide the accuser and the accused equal opportunity to have others present during an institutional disciplinary proceeding including the opportunity to be accompanied to any related meeting or proceedings by an advisor of their choosing (not as a representative or presenter of information, but as an advisor);
- inform in writing both the accuser and the accused simultaneously of the outcome of any institutional disciplinary proceeding that arises from an allegation, the procedures for the accused and the victim to appeal the results of the proceedings, any change to the results that occurs prior to the time that such results become final, and the date when such results become final.

Standard of Evidence: For any Pittsburg State University discipline proceedings (including those arising from allegations of rape, acquaintance rape, domestic violence, dating violence, sexual assault or stalking) the “preponderance of evidence” standard of proof will be utilized. A preponderance of evidence standard evaluates whether it is more likely than not, based on the evidence available, that a violation occurred.

Possible Sanctions: A student found responsible for any form of sexual assault or relationship violence (rape, acquaintance rape, domestic violence, dating violence, sexual assault or stalking) could be criminally prosecuted and is subject to a range of sanctions up to and including prohibition from contact with the victim(s) as well as the following sanction leading up to suspension or expulsion from the University:

1. Expulsion
2. Suspension
3. Residence Hall
4. Disciplinary Probation
5. Disciplinary Warning
6. Restitution
7. Suspension of the Privileges of a Registered Student Organization
8. Termination of the Registration of a Registered Student Organization
9. Specifically Defined Sanction

Note: More information about the specific of each sanction can found by accessing Article 34 of the Student Conduct Code

Title IX Investigation: When the university receives any report of sexual misconduct of a student, the University's Title IX Coordinator will be immediately notified of the allegation by the office receiving the report. The Title IX Coordinator will promptly begin an investigation to determine what occurred and will inform and obtain consent from the victim before beginning the investigation. If the victim requests confidentiality or asks that the complaint not be pursued, the University will take all reasonable steps to investigate and respond to the complaint consistent with the request for confidentiality or request not to pursue an investigation. If a victim insists that his or her name or other identifiable information not be disclosed to the alleged perpetrator, the University's ability to respond may be limited.

Disclosure of discipline outcome of Sexual Misconduct Cases:

Upon written request, Pittsburg State University will disclose to the alleged victim of a crime of violence (as that term is defined in section 16 of title 18, United States Code), or a non-forcible sex offense, the report on the results of any disciplinary proceeding conducted by such institution against a student who is the alleged perpetrator of such crime or offense. If the alleged victim is deceased as a result of such crime or offense, Pittsburg State will provide the results of the disciplinary hearing to the victim's next of kin, if so requested.

Pittsburg State University prohibits retaliation by its officers, employees, or agents against a person who exercises his or her rights or responsibilities under any provision of the Campus SaVE Act.

Campus Security Authorities:

Crimes should be reported to the University Police to ensure inclusion in the annual crime statistics and to aid in providing timely warning notices to the community, when

appropriate. However, the university recognizes that for various reasons not every crime is reported to law enforcement. For this reason, the Clery Act requires all institutions to collect crime reports from a variety of individuals and organizations that the Act defines to be “campus security authorities” (CSA).

Campus Security Authorities at Pittsburg State University include:

- University Police
- Director of Student Rights and Responsibilities
- Vice President for Student Life
- Administrators responsible for student housing, student center or student extracurricular activities.
- Administrators and coaches in intercollegiate athletics
- Faculty or staff advising registered student organizations.
- Student resident assistants in on-campus living facilities.
- Administrators and advisors to Greek chapters.

It will be the role of the CSAs to be there for students as someone to whom they can report crimes, look to for guidance if they have been victims of a crime, or ask if they simply need advice as to whether or not they should report an incident. The CSAs will not be responsible for taking any actions in regards to suspected perpetrators of a crime, nor are they to make any judgments as to whether or not a crime took place; they are simply responsible for reporting suspected incidents of crimes to the University Police. The CSAs are also not responsible for convincing victims of a crime to contact the police if victims do not want to contact the police.

As a result of the negotiated rulemaking process which followed the signing into law, the 1998 amendments to 20 U.S.C. Section 1092 (f), clarification was given to those considered to be campus security authorities. Campus “Pastoral Counselors” and Campus “Professional Counselors”, when acting as such, are not considered to be a campus security authority and are not required to report crimes for inclusion into the annual disclosure of crime statistics. As a matter of policy, they are encouraged, if and when they deem it appropriate, to inform persons being counseled of the procedures to report crimes on a voluntary basis for inclusion into the annual crime statistics.

The rulemaking committee defines counselors as:

Pastoral Counselor - An employee of an institution who is associated with a religious order or denomination, recognized by that religious order or denomination as someone who provides confidential counseling and who is functioning within the scope of that recognition as a pastoral counselor.

Professional Counselor - An employee of an institution whose official responsibilities include providing psychological counseling to members of the institution’s community and who is functioning within the scope of his or her license or certification.

Confidentiality of Clery related reports:

A student's privacy concerns are weighed against the needs of the university to respond to acts of harassment, including domestic violence, dating violence, sexual assault, and stalking. To the greatest extent possible, all reports will remain private. However, information may be shared with appropriate departments and agencies under a need-to-know basis when it pertains to investigative needs and safety concerns of the campus community. If an individual requests that his or her name not be revealed or asks the university not to investigate or seek administrative action against the alleged, the university will be limited in its ability to respond fully to the incident. Title IX and the Violence Against Women Reauthorization Act include protections against retaliation. University officials will not only take steps to prevent retaliation but will also take strong responsive action if it occurs.

SEX OFFENDER REGISTRATION

The Campus Sex Crimes Prevention Act (CSCPA) of 2000 is a federal law that provides for the tracking of convicted sex offenders enrolled at, or employed at, institutions of higher education. The CSCPA is an amendment to the Jacob Wetterling Crimes Against Children and Sexually Violent Offender Act. The federal law requires state law enforcement agencies (in Kansas, it is the Kansas Bureau of Investigation) to provide Pittsburg State University with a list of registered sex offenders who have indicated that they are either enrolled, employed or carrying on a vocation at Pittsburg State University.

Pittsburg State University is required to inform the campus community of the existence of the list and where it is available for review. The list is available to be viewed at the Pittsburg State University Police Department, 1501 South Joplin Street, Pittsburg, Kansas. In addition, a list of all registered sex offenders in Kansas is available from the Kansas Bureau of Investigation at <http://www.kbi.ks.gov/registeredoffender/>. Pittsburg State University is located in Crawford County and the zip code is 66762.

The CSCPA further amends the Family Educational Rights and Privacy Act of 1974 (FERPA) to clarify that nothing in the Act can prohibit an educational institution from disclosing information provided to the institution concerning registered sex offenders. This statement is provided in compliance with the Campus Sex Crimes Prevention Act of 2000 and the Kansas Offender Registration Act (KORA) of 2003, KSA 22-4902.

FIRE DRILLS AND PROHIBITED ITEMS

Four fire drills, two during each academic semester, are held each academic year in each residence hall facility. University Housing staff, University Police officers, and Physical Plant personnel (as needed) coordinate the implementation of all drills.

Prohibited Appliances in Student Housing Facilities:

The use of open element cooking/heating units and/or the use of cooking fats and greases, candles or other open flames, is not allowed. Cooking with woks, toaster ovens, crock-pots, hot plates, open element, or any other cooking devices is forbidden. Cooking in rooms is prohibited except for microwave cooking and coffee pots. Students who set off residence hall fire alarm systems due to cooking/open flames in their rooms or residence hall kitchens may be subject to disciplinary action.

Smoking:

Pittsburg State University residence halls are smoke free and tobacco free including but not limited to cigarettes, cigars, vaporizers, hookahs, and chewing tobacco. Smoking and tobacco use is prohibited, without exception, in all buildings, facilities and vehicles owned by the University. Tobacco products, including e-cigs, and smokeless tobacco are prohibited within all areas of the University.

Candles, Incense, and Other Open Flames:

Lit candles in the residence halls create extreme fire danger for all students. No open flames or candles of any type are allowed in the residence halls. The burning of incense is also strictly prohibited in University residence halls.

Procedures for student housing evacuation in the case of a fire:

Exit signs are strategically located throughout the buildings. Their purpose is to indicate exit routes, particularly in emergency situations. They, too, are considered to be fire equipment and are not to be tampered with. The importance of this equipment cannot be over-emphasized.

In the event of a fire:

1. Pull the nearest fire alarm.
2. Exit the building.
3. Call the University Police at 911 to report the fire, and give as much information as possible.

When an alarm sounds:

1. Lock your room door.
2. Wear shoes, take your keys, and carry or wear a coat.
3. Don't panic—move quickly outside the building.
4. DO NOT USE ELEVATORS. Use the exterior stairwells.

For additional information regarding fire safety, please refer to fire safety posters in each residence hall. Failure to respond to fire alarms or staff requests for evacuation may result in disciplinary action.

FIRE SAFETY EDUCATION AND TRAINING PROGRAMS

Fire safety education programs for all students living in on-campus student housing and all employees that have any association with on-campus student housing are held at the beginning of each academic year. These programs are designed to familiarize everyone with the fire safety system in each housing facility and to train everyone on the procedures to be followed in case there is a fire. Information regarding the university's fire safety policies and evacuation procedures are contained in the *Guide to Hall Living* (distributed individually to each resident of on-campus housing). During these programs, trainers emphasize that participating in fire drills is mandatory. Maps of each on-campus student housing facility that illustrate evacuation routes and fire alarm equipment locations are posted conspicuously on the back of each residence hall sleeping room door and evacuation procedures are posted in the commons area throughout each facility. Students with disabilities are given the option to have a "buddy" assigned to them.

As a part of pre-service training for residence hall staff, fire safety education and training is provided. Local fire authorities, as well as University Housing staff experienced in fire safety matters teach these sessions.

If a fire occurs, students are instructed to leave hazardous areas per the evacuation routes and get to a predetermined location before calling 911 for help. They are to remain in that location so that the University Housing staff and other emergency responder personnel can document that all occupants have left the building. RAs are instructed to pull the fire alarm as they are leaving the building if they can do so without risking their safety.

REPORTING A FIRE

Per federal law, Pittsburg State University is required to annually disclose statistical data on all fires that occur in on-campus student housing facilities. Listed below are the **non-emergency** numbers to call to report fires that have already been extinguished in on-campus student housing. These are fires for which you are unsure whether the University Police may already be aware. If you find evidence of such a fire or if you hear about such a fire, please contact one of the following:

Pittsburg State University Police (620) 235-4624
Director of University Housing (620) 235-4245

When calling, please provide as much information as possible about the location, date, time and cause of the fire.

FUTURE IMPROVEMENTS IN FIRE SAFETY

University Housing is involved in continuous evaluation and improvement of on-campus residential facilities. Infrastructure systems, including those related to fire safety, are part of this evaluation and improvement efforts.
