Dr. Snyder presented a proposal for a second emphasis policy (attached to the minutes). Representatives were encouraged to take the draft back to their departments. A vote will be held at the April meeting.

Report on Electronic Thesis Committee – Dr. Snyder
- Will departments still want physical copy?

Jaime Vanderbeck explained the Library already has a software program they believe will be adequate for this process. A sample group of thesis students will be tested using this software in the fall. The question is whether departments will still require a physical copy from the student. Representatives were asked to discuss this issue with their departments and it will be discussed again in April. The Council would also like to have more information on whether students will be able to opt out of open access.

New Business:
