Substance Free Floors

The Substance Free Floors were designed to provide support to students desiring to live in a substance free environment and live amongst other students that share their lifestyle choice.

Students who chose the Substance Free option do so for a variety of reasons.

It is the hope and expectation of the University Housing staff that if Pittsburg State students are given support, other students will join them in their efforts when they realize that a positive social and academic life can exist at Pittsburg State without the use of alcohol or other substances.

The Substance Free communities have been in existence for three years and have been extremely close knit communities. They are located on Tanner Annex 3rd (female) and 4th (men) floors. Both floors are air-conditioned and have network connections.

If there is not enough interest in either of the theme floors, they may not be used as a theme floor or be partially filled with students who did not select the theme floor option.

Parents, if you are completing your son or daughter's form, please only sign them up if they want to participate!

Academic Excellence Floors

The Academic Excellence Floors strive to bring together students desiring an environment with a strong academic focus. The floors are designed for students who enjoy a quiet atmosphere that is conducive to studying and concentrating on academics. Quiet hours remain in effect during all times of the day and night and hall staff present programming geared toward academic success. Students on these floors may also choose to implement additional academic programming to help one another succeed.

The floors (one male and one female) are located in Trout Hall. Trout Hall has network connections and air-conditioning.

Make a Difference!

Join a unique community by living on a theme floor. If you are interested in living on any of the theme floors, please check the theme floor options on your contract room assignment form accompanied with your contract. We look forward to you being a part of these unique communities.
