New Point System for HCA members

This semester, the honors have implemented a new point system to try to increase the awareness and need toward community service. Points were awarded based on attendance at meetings, committee meetings, and community projects around the community. The benefits of the new system are that it is the first year the students have been able to accumulate over 100 points for their efforts in the community. This means that the students will be able to achieve a Bronze, Silver, or Gold level of achievement in the point system.

The new system is as follows: If a member attends all of the general meetings, committee meetings, and participates in at least one community service project, they will receive a Bronze Level Award. For a Silver level award, the student must attend all of the general meetings, committee meetings, and participate in at least two community service projects. For a Gold level award, the student must attend all of the general meetings, committee meetings, and participate in at least three community service projects.

Sponsored Space on Campus

On April 29th, 2012, the students of the Honors College approved a student-run shop (located below) to be a space on campus sponsored by the Honors College. The space will be used by the Honors College students and will be open to the public at no charge for the students who wish to use it.

The student-run shop will be an enjoyable place for students to work and will be open to the public at no charge. The Honors College students will be able to meet in this space, work on their studies, and have a place to relax. The shop will be open to the public at no charge and will be a great place for students to work on their studies and have a place to relax.

Member Spotlight

Alexis McKinnon is a senior and one of the top students involved in the Peer Mentor Program. Alexis is a double major in Political Science and Sociology, and she has been a Peer Mentor for the last two years. Alexis is a hard-working student who is always willing to go the extra mile for her students. She is responsible, dedicated, and has a great work ethic. She is a great role model for the students in her group.

Peer Mentor Program

The Peer Mentor Program is a great way for students to get involved in the community and help others. The Peer Mentor Program is a great way for students to get involved in the community and help others. The Peer Mentor Program is a great way for students to get involved in the community and help others. The Peer Mentor Program is a great way for students to get involved in the community and help others.

Honor College in the Big Event

One of the main goals of the Honor College is to provide a safe environment, support for students, and a community for students to thrive in. This goal can be achieved through various initiatives, such as the Big Event. The Big Event is a community service event that brings together students, faculty, and staff to work on projects that benefit the community. The Big Event is a great way for students to give back to the community and get involved in community service.

Graduating Seniors and New Officers

Congratulations to the 11 students graduating in the 2012 spring semester. They have worked hard to achieve their goals and are ready to move on to the next chapter of their lives. They are a great group of students who have contributed so much to the Honors College.

New Members

We welcome 48 new students to the Honors College for next year. They consist of 14 males and 34 females, and they come from a variety of backgrounds. They have worked hard to achieve their goals and are ready to move on to the next chapter of their lives. They are a great group of students who have contributed so much to the Honors College.
