## There's no telling...

Will this season be a dream or a nightmare? We've decided it will be both with our eclectic season of plays that center on fantasy, illusion, and the surreal.

Our opener is the most famous tale of "logical nonsense" in the world, *Alice In Wonderland*. We hope the whole family joins us for this incredible adventure down the rabbit hole.

Following that are our ever-popular student-directed one-act plays.

Audiences familiar with these know the sky's the limit with these first-time directors!

In March, we present the award-winning and powerful *Marisol*, an angry, apocalyptic tale about the revolt of angels. This urban nightmare is a clarion call for humanity to rediscover their compassion and save the world.

Finally, in April we invite you to *Fuddy Meers*, a fractious comedy that defies synopsis. You'll have to hope Claire, the hand puppet, and the masked man under the bed can make sense of things for you.
