

New Training Event Coming to Pittsburg

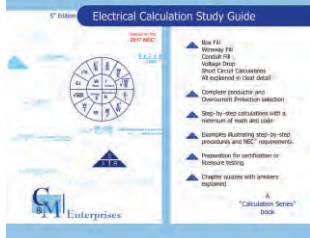

C&M Enterprises Presents:

Electrical Training For Craftsmen

Don't be caught without your CEU's, classes do sell out.

2017 NEC® Electrical Calculations

Just Follow the Steps ...

Box, Raceway, & Voltage Drop Calculations under the 2017 NEC®

April 13, 2018
8:00AM-3:00PM
Pittsburg, Kansas

- Earn your CEU's
- Get up close and personal with NEC® electrical requirements.
- Check on line at www.CandMenterprises.net for a complete list of other training

Specifically designed for licensed electrical craftsmen seeking their state mandated CEU's.

This course is also well suited for designers, contractors, electrical engineers, and others with a need to know regarding the 2017 NEC®.

C&M Enterprises training is:

- Code based
- Safety based
- Electrical theory
- Electrical mathematics

- Box, Raceway, & Voltage Drop Calculations under the 2017 NEC® 6 - Code Based Contact Hours

Frequent Training Program: C&M Enterprises is offering a \$20.00 credit for returning attendees.
Discount must be requested: see website for details.

Register early at: CandMenterprises.net **Cost: \$169.00** (early registration) or \$209.00 at the door.
Space permitting

Get Empowered!

Friday, April 13, 2018
at the
Pittsburg State University
Kansas Technology Center
8:00 AM to 3:00 PM

Check-in begins Friday at 7:30 AM

2017 NEC® Electrical Calculations

C&M Enterprises will be providing training on **Box, Raceway & Voltage Drop** under the 2017 NEC

Box, Raceway, & Voltage Drop Under the 2017 NEC

This in-depth code based six-hour instruction into box fill, conduit fill, wireway/gutter sizing, and voltage drop calculations will expose the attendee to the NEC® requirements governing compliant fill & sizing calculations. This training is designed to go beyond the basics and provides insight into all the requirements and familiarity with the necessary tables and Code sections governing fill, sizing, and compliance. While NEC® codebooks may be helpful, this course is designed to provide all the necessary information to explain, comprehend and complete the calculations without additional materials. The coursework contains additional calculation procedures commonly encountered in the electrical construction industry, provides complete detailed description of the various calculations, and has proven to be valuable reference for future calculations and competency testing. This course is especially suited for master and journeyman electricians, design professionals, enforcement personnel, and others with a need-to-know regarding various calculation processes necessary for NEC® compliance.

This course qualifies for **6 Code based** hours of continuing education for Kansas electricians. See: CandMenterprises.net

CEU's

Recognized as Code based by:

Wichita Area Electrical Education Review Board
Johnson County Contractor Licensing
