This course qualifies for 6.0 Code based hours of continuing education for Kansas. For other state and jurisdictional recognition, or for more information see: CandMenterprises.net

Get Empowered!

Friday, April 15, 2016
at the
Pittsburg State University
Kansas Technology Center
8:00 AM to 3:00 PM

Check-in begins Friday at 7:30 AM

C&M Enterprises will be providing 6 Code based hours of training on One & Two Family Dwelling Electrical Systems.

One & Two Family Dwelling Electrical Systems

This unique Code based continuing education provides both overview and detailed insight into the electrical requirements for one-and-two-family dwellings as depicted in the 2014 NEC®. This course is directed toward contractors, tradesmen and craft in need of approved CEUs for license renewal, but is also suitable for code enforcement and anyone in need of insight into the dwelling electrical provisions of the 2014 NEC®. The training details a "room-by-room walk-through tour" (from the perspective of code enforcement) of a typical one-family dwelling. This unique training approach reveals applicable NEC® code requirements for the rough-in, final, and service installation phases of the construction and inspection process. The visual PowerPoint training material was originally developed by the International Association of Electrical Inspectors® (IAEI®). Coursework is provided and consists of the IAEI® produced workbook material intended for use with the PowerPoint presentation. Codebooks are always recommended, but this training is intended to provide the necessary coursework. This particular training session will provide 6 contact hours of approved Code based continuing education for craftsmen and license holders in need of 6.0 code based hours.

This course qualifies for 6 contact hours of Code based continuing education for Kansas electricians for more information see: CandMenterprises.net

CEU's
