

# New Training Event Coming to Pittsburg

**C&M Enterprises Presents:**

## Motors, Conductors, & Protection under the 2011 NEC®

**Pittsburg, Kansas  
April 19, 2013**

- **Earn your CEU's**
- **Get up close and personal with NEC® electrical requirements.**
- **Check on line at [www.CandMenterprises.net](http://www.CandMenterprises.net) for a complete list of other training**

Specifically designed for licensed electricians seeking their mandated CEU's. These courses are also well suited for designers, contractors, electrical engineers and others with a need to know regarding the requirements of 2011 NEC®.

C&M Enterprises training is:

- Code based
- Safety based
- Electrical theory

**Motors, Conductors, & Protection  
under the 2011 NEC  
6 Code Based Contact Hours**

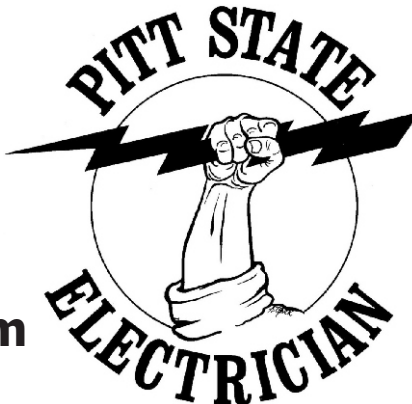

**Don't be caught without your CEU's, classes do sell out.**

**Frequent Training Program:** C&M Enterprises is offering a \$20.00 credit for returning attendees.  
**Discount must be requested:** see website for details.

Register early at: [CandMenterprises.net](http://CandMenterprises.net) **Cost: \$169.00** (early registration) or \$209.00 at the door.  
*Space permitting*

**This training  
brought to you  
by:**

**Pitt State  
Electrical Program**

An interactive registration form is attached to the last page of the PDF version of this brochure. Fill out, print and click the *submit by e-mail button*.

### **Seminar Agenda**

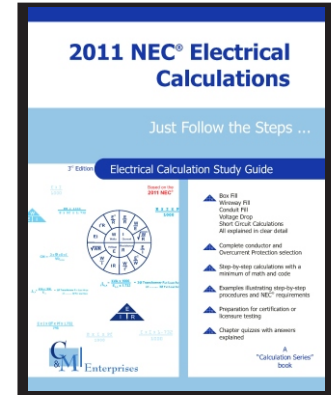

7:30 am	Check-in
8:00 am	Class begins
11:30-12:30	Lunch on your own
3:00 pm	Class ends

This course qualifies for 6.0 Code based hours of continuing education for Kansas. For other state and jurisdictional recognition, or for more information see: [CandMenterprises.net](http://CandMenterprises.net)

# Get Empowered!

**Friday, April 19, 2013**  
**at the**  
**Pittsburg State University**  
**Technology Center**  
**8:00 AM to 3:00 PM**

*Check-in begins Friday at 7:30 AM*

**C&M Enterprises** will be providing **6** Code based hours of training on **Motors, Conductors, & Protection** to the **2011 NEC®**

## Motors, Conductors, and Protection, 2011 NEC®

This in-depth code based six-hour course provides specific user information for the general application of motors, motor conductors and motor protection. Specific sizing and protection requirements of various motor circuit componentry, which is found in the typical motor circuit, is outlined in a detailed step process revealing both the calculation requirements and governing code sections related to motor circuit componentry sizing and based upon the requirements of the 2011 NEC®. While NEC® codebooks (always recommended) and calculators may be helpful, this course is designed to provide all the necessary information and coursework to explain, comprehend and complete the motor circuit componentry selection process without additional materials. The coursework, published by C&M Enterprises, contains additional calculation procedures necessary for general commercial and industrial construction. This course is especially suited for master and journeyman electricians, design professionals and others with a need-to-know regarding some the basic motor circuit selection and calculation processes required for NEC® compliance.

This course qualifies for 6.0 Code contact hours of continuing education for Kansas electricians for more information see: [CandMenterprises.net](http://CandMenterprises.net)

### CEU's

Recognized as Code based by:

Kansas Mechanical Trades Review board  
Wichita Area Electrical Education Review Board  
Johnson County Contractor Licensing
