Seminar Agenda

7:30 am	Check-in
8:00 am	Class begins
11:30-12:30	Lunch on your own
3:00 pm	Class ends

This course qualifies for 6.0 Code based hours of continuing education for Kansas. For other state and jurisdictional recognition, or for more information see: CandMenterprises.net

Get Empowered!

Friday, April 25, 2014
at the
Pittsburg State University
Kansas Technology Center
8:00 AM to 3:00 PM

Check-in begins Friday at 7:30 AM

C&M Enterprises will be providing 6 Code based hours of training on NEC Electrical Calculations under the 2011 NEC®

NEC Electrical Calculations under the '11 NEC®

NEC® Calculations is an in-depth six-hour Code based course detailing some of the specific calculation requirements found in electrical construction and based upon the requirements of the 2011 NEC®. This course follows step-by-step methods for determining box fill, conductor de-rating & ampacity, conduit fill, and voltage drop. Understanding & implementing Table 310.16 and conductor de-rating for determining compliant conductor ampacity is explained in depth. While NEC® codebooks (always recommended) and calculators may be helpful, this course is designed to provide all the necessary information and coursework to explain, comprehend and complete the calculations without additional materials. The coursework, published by C&M Enterprises, contains additional calculation procedures for auxiliary gutter and wireway sizing requirements and short-circuit calculations for determining proper equipment ratings for minimum compliance. This course is especially suited for master and journeyman electricians, design professionals and others with a need-to-know regarding some the basic calculation processes required for NEC® compliance.

This course qualifies for 6 contact hours of Code based continuing education for Kansas electricians for more information see: CandMenterprises.net

CEU's

Recognized as Code based by:

Kansas Mechanical Trades Review board
Wichita Area Electrical Education Review Board
Johnson County Contractor Licensing
