

Meeting with COT – Workforce Learning: John Iley, Krissy Lewis, Judy Smetana
Hospitality Management Mtg.: John Oppliger, Sarah Ball, Rick Hardy, Laura Covert
5/8/18

BS in Resource Development: designed to be online completion degree program

Emphasis in Hospitality Management within the track???

Emphasis three to plug into their tracks

Could substitute courses if needed within our emphasis – if need be

Could substitute core courses with ours if needed

ITM AUSTRIA

Austria website: <https://www.itm-college.eu/kopie-von-college-programme>

Needs to define more of the roll of ITM

Majority of their classes are face to face

Students start their courses at ITM then transfer to Pitt State – take online or face to face depending on program

Will the foundation courses cover for our recreation core for students who take hospitality mgmt.

The foundation courses currently within the workforce development would cover what we would cover within recreation

Negatives of this:

Will the recreation students hear other option and go the workforce learning route

Positives of this:

Could help with over population of core recreation courses

The 2 year cycle of our courses work with their rotation of classes

Who advises these students???. Kristi – human resource; Mark Johnson – supervision & leadership; Rec – hospitality

Students completing this degree – all over the country – work place bound

Kristi – working with Tim Peterson

Identify 3000 non-degree completers – Get Ahead – for online degrees – grant program

Marketing the degree program through various outlets

Pitt State is part of that program – help market our program

If we were to do this, what would legislation look like – are we responsible for going through legislation or you?

Workforce learning legislate

Talk with provost and registrar – about hours – workforce learning would approach

Credit hour production – emphasis – would separate out – we could get the credit for OUR emphasis

How does with work with accreditation? Not a problem, no issues

Timeline – Summer get legislation started; Faculty Senate in the fall, implement in Spring 2019

Keep us updated, will put together the package, share with us and the deans

Permission of instructor w/classes – guaranteed to be in classes for our students and then those students who are enrolled in the workforce learning – will be granted they will be in those classes instead of those who want to only take this as an elective

Program review – will we be included in that program review process?

Faculty vita will be needed only
