Janet:

Thank you for your message.

The addition of 20 new students per year or more would be no problem at all.

This sounds like a very good program and we would be interested in supporting it.

Subject: Request to make PSYCH 155 a required Pathway course for revised language emphasis

Dear David:

We (English and Modern Languages) are revising the existing Language Emphasis of the BA in English into a Language and Teaching Emphasis with a required education minor. To that end, we would like to require that students take PSYCH 155 as their 3-credit Wellness course under section G of the Pathway. We also plan to require PSYCH 263 and PSYCH 357. The goal of this revision is to create a degree program that will be comparable to a degree in Teaching English as a Foreign Language that international students might take in their home countries—with the end goal of increasing international student enrollment. Hence, the additional enrollment in Psychology Department courses would be predominantly in the form of international students.

Do you anticipate being able to accommodate additional enrollment in those courses? Obviously, I can't give you any very definite estimate of students other than to say that we are going to work as hard as we can to bring as many as we can, but my tentative personal goal is to work toward 20 new students per year in this program, which would mean approximately ten additional students per semester in those courses. However, we have no students at the moment, so this is a future projection, not an immediate need for seats.

Please let me know what you think.

Thanks very much.

Janet

Dear Janet,

I think that with our current number of faculty (2½ for Spanish and 1½ for French), there may be a problem to accommodate all international students in French 1 and Spanish 1, and in Spanish 2, especially in the Fall semesters when international students enroll so late.

MLL 479 is offered approximately every two to three years due to the very low number of students needing the class, but if we had an increased number of students needing the class, it could potentially be offered every other year.

If the ML program is allowed to go ahead with a Spanish search to fill Yasmina's position, the accommodation problem in French 1 and Spanish 1 & 2 would be greatly reduced, and it would make it easier for MLL 479 to be offered every other year.

Let me know if you need anything else,

Center for Student Accommodations

The Center for Student Accommodations (CSA) provides support services to currently enrolled PSU students with disabilities which substantially impairs one or more major life activities. Disabled students may qualify for services that accommodate for their impairments and provide equal access to educational opportunity.

Reasonable accommodations depend upon the nature and degree of severity of the documented disability. While the Americans with Disabilities Act of 1990 requires that priority consideration be given to the specific methods requested by the student, it does not imply that a particular accommodation must be granted if it is deemed not reasonable and other suitable techniques are available.

The specific type of service is determined on an individual basis. We attempt to match the student with the appropriate service. Reasonable accommodations are typically categorized on the basis of: (a) mode of presentation (e.g., note-taker for class lectures, reader for exams); (b) mode of expression (e.g., use of a computer for written exams), (c) location and setting (e.g., distraction reduced testing location), and (d) time (e.g., extra time for tests).

The Center for Student Accommodations can also provide study skill strategies and direct students to other appropriate university support services.
