Pitt State Pathway – Chair: Bob Kehle

POLS 201 Introduction to Public Policy was approved by the committee as a Pitt Pathway course. The committee moves acceptance of this course. This is the course that had apparently slipped under the radar from past year's committee.

We also investigated the minor in relation to the new General Education program and will use the current policy as it does not impact the new general education package nor minor programs.

The Pitt Pathway committee has been working hard to incorporate the KBoR General Education package. I would like to complement them on the hard work they put in on the project.

These are the results and in some cases documents or explanations.

1. Revision of Pitt Pathway document. attached
2. Finding homes for our current Pitt Pathway courses in relation to the KBoR list. attached
3. Companion elements
4. Dealing with the double dip issue.

There are two other items the committee felt were important.

1. The constitution committee will have to work on renaming the committee to General Education
2. With this new package coming online in fall of 2024 it seems redundant to deal with new Pitt Pathway submissions. So, we would like to not review new PP courses.

Revision of Pitt Pathway document:

This has been essentially maintained as it provides objectives and assessment. There is a slight modification in the mission statement by moving one line from the Core Values to the mission statement. The rest of the core values were deleted as they no longer apply.

Definition of terms: Is only what an element is as the rest are no longer relevant to the KBoR listing.

The rest of the Pitt Pathway document is retained including categories, statement on the categories, the rubrics and elements. This gives us a way to assess our program.

Finding homes for our current Pitt Pathway courses:

In most cases courses simply moved to the KBoR categories. A few did not. The Philosophy courses listed in the Pathway Math are no longer a fit and there were others that did not transfer across. These courses are now listed under KBoR #7 Institutionally Designated Areas – 6 credits. This area will now include as required courses: Gorilla Gateway (2 credits) and Lifetime Fitness (1 credit) leaving 3 credits for an additional course.

Companion elements:

These no longer have a home and are dropped.

Dealing with the double dip issue:

This is a sticky issue as students can complete their General Education at another institution and transfer to PSU.

Most programs consist of 120 credit hours. The new KBoR General Education package is 34-35 credit hours. That leaves 86 credit hours available for program courses, though not all programs have specific requirements at that level. Currently, some PSU programs "double dip": specify Pathway courses that majors must take, but don't include them as part of the major requirements. However, transfer students may not have taken a required course as part of the KBoR general education package and might have to take more than 120 hours to complete their degree. What this means:

Programs need to include all required courses as part of their 85-86 hours. PSU students that take a required course as a General Education will need to take additional credits to complete the 120 hours, perhaps an elective. Transfer students who have completed the general education package should only need the 85-86 program requirements to graduate. Transfer students who have taken program required courses as general education may also need elective hours to complete the degree, but in no cases can the degree require more than 120 hours (without an exemption) to complete.

The addition of IP as an option allows students to take the course during the semester in preparation for a study abroad trip that occurs after the term has concluded without penalizing the student for earning an "incomplete" grade. Recording an incomplete grade disallows the student from earning academic honors for that term.

Purpose/Justification for Revision to Course: To add IP as a grade option for this course.**Existing Course:**Course Number: HONORTitle of Course: Special Topic ()Credit Hours: 1-3Prerequisite: none

Revision for: Major Minor Emphasis Certificate

Department: Health, Human Performance and Recreation College: Education

Submission Date: 9/13/2022

Revision Effective: Fall, 2023
(Year)

Contact Person: David Boffey, PhD

Faculty member Chair

Name of Existing Major or Minor/Emphasis/Certificate: Exercise Science

If proposing a name change to major or minor/emphasis/certificate, indicate Proposed Name Change:
N/A

Description of Change:

Add the following courses to the list of Exercise Science Electives:

MGT 101 - Introduction to Business

MGT 105 – Introduction to Entrepreneurship

MGT 201 – Introduction to Management

MKTG 201 – Fundamentals of Marketing

PHIL 107 – Critical Thinking

PHIL 208 – Logic

PSYCH 394 – Principles of Learning

REC 280 – Methods and Leadership

REC 320 – Promotion in Rec. Sport and Hospitality

REC 450 – Sport Operations

Rationale for Change (include changes to curriculum objectives):

The changes being requested in this application will allow students in the EXSCI program to take electives that will add relevant breadth to their academics and the foundations of their career paths. These electives will be helpful and provide significant learning experiences for students pursuing the Human Performance/Strength and Conditioning Emphasis and the Clinical/Pre-Professional Emphasis.

These changes will support our current curriculum objectives:

To produce top-caliber graduates who can act as competent practitioners and:

1) contribute to the body of knowledge in the fight against diseases associated with inactivity, sedentary behavior, and/or unhealthy lifestyles, and/or

2) contribute to the fields of strength and conditioning, sports performance, and fitness to enhance the lives of athletes, recreational athletes, and/or the general public.

Is this revision related to, and/or may affect, any degree program or minor/emphasis/certificate at any other Regent university?

Yes No

Whether a "yes" or "no" response, please provide an explanation.

This revision of curriculum will not affect other Regent Institutions.

Is this revision related to, and/or may affect, any other department's/college's/unit's curricula or programs at Pittsburg State University?

Yes No

Whether a "yes" or "no" response, please provide an explanation. Provide documentation of any discussions (e.g. copies of e-mails, memos, etc.) that have occurred.

These changes to the EXSCI electives may lead to an increase in the number of students enrolling in those courses.

Please see attached communication with the instructor(s)/Chairperson(s) responsible for these elective courses (Appendix A).

Hi Shelby,

I would like to know if we can include three courses that you teach in the electives list for Exercise Science program:

REC 450 – Sport Operations
REC 280 – Methods and Leadership
REC 320 – Promotion in Rec, Sport and Hospitality

If you approve, students will see this class in their Degree Audit and they will be advised to take it if it fits their plan of study. Please let me know what you think, and if you would like any more information.

Respectfully,
David

Those would be fantastic additions! I'll for sure reach out to see what most of your majors are trying to do with their degrees so I can specialize course content prior to giving the lectures. I can also get that info from them in real-time, I just want to be prepared.

Thank you sir!

Hi David,

Absolutely! Either class would work well as an elective choice and we staff those courses regularly.

Thanks,
Chris

Hi, David.

I'm not sure we have the staff to include Business Professionalism. It is a WL class and is required for all Kelce majors - it fills quickly. About how many students are you expecting to choose this emphasis?

Thanks!

Ly

We have approx. 115 students in the EX SCI major, and in our new emphasis (Human Performance/Strength & Conditioning) we currently have 25. We are expecting about 35-40 students in the new emphasis within a couple of years. I would like to advise the ones interested in the fitness/health/gym industries to take Intro to Business, I think that would be great for them.

Hi Lynn,

Given our numbers, is there room in MGT 101- Introduction to Business for our majors interested in this topic?

I would also like to know if there is space for students in the new emphasis to take these two classes:

MGT 105 – Introduction to Entrepreneurship
MKTG 201 – Fundamentals of Marketing

Thank you for your time,
David

MKTG 201 and MGT 201 (Intro to Management) would be good options for them to take - we added them for primarily non-business majors. MGT 101 and 105 are good as well. The Bus Prof class is the only one that is worrisome.
