(Undergraduate Course Numbers through Course Number 699)

Department: HPSS College: A&S Submission Date: 04/07/2020

Contact Person: James McBain Faculty member Chair

Is this new course proposal related to, and/or affect, any other department's/college's/unit's curricula or programs at Pittsburg State University?

Yes No

Whether a “yes” or “no” response, please provide an explanation. Provide documentation of any discussions (e.g. copies of e-mails, memos, etc.) that have occurred.

Course proposal does not affect any other department's, college's, or unit's curricula or program.

Proposed Course:
Course Number: PHIL 115

Title of Course: Public Health Ethics

Credit Hours: 3

Date first offered: Spring 2021 (Semester/Year)

Fall Spring Summer (check all that apply)

Prerequisite: None

Course Description (as it will appear in the next catalog): Public Health Ethics provides an overview of the ethical concepts, theories, and approaches that apply to public health practice. Specific topics include, but are not limited to, ethical issues arising in individual freedom vs public good, paternalism, harm reduction, vaccination, pandemic planning and response, justice, and resource allocation. Legal and policy factors will also be considered related to ethical decision-making.

Purpose/Justification for Proposed Course: Currently there is no course at PSU on Public Health Ethics. However, such a course would be of value to any student going into the area of public health. This course would fill that void and be directly applicable to those students in departments and/or programs in Public Health Minor, Nursing, Social Work, Pre-Medicine, Psychology and Counseling, Sociology, Political Science, HHPR, and others.

Objectives/Student Learning Outcomes (as it will appear in the syllabus)

By the end of this course the student will be able to:

• Understand the conversation about public health ethics as an enterprise incorporating moral philosophy, bioethics, and evidence-based social sciences.

• Understand the moral interconnectedness of responsibility, duty and rights from an individual and collective perspective.

• Identify and clarify diverse moral norms and principles that underlie diverse convictions about public health ethics.

• Subject moral norms and principles to dispassionate critical reasoning aimed at evaluating the force of underlying reasons for and against them.

• Develop strong arguments for a complex global health ethical debate drawing from the terms covered in class.
Write clear and concise essays subjecting a issues of public health ethics to dispassionate ethical analysis.

Assessment Strategies [e.g., exams, projects, university rubric, etc. (as it will appear in the syllabus)]

Multiple Choice Exams, Online Informal Writings, Two Formal Papers. The student's grade for this course will be based on the following:

- Exams - Each exam will be purely objective in nature and will assess whether you have come to understand the theories and the arguments presented in the text and in class. The first exam will test for the material up until that date. The second exam will test for the material from the first exam until that date. And the third exam will cover the material from the second exam until the end of the semester. There is no comprehensive final exam for this course.
- Discussion Forums/Ethics Blogging - The ethics blogging assignments will be posted on the University’s Canvas Discussion service. This is a discussion-based assignment. You will be discussing the material with the other students in the class. This is a two-part assignment - Blog Start and Discussion-Posts.

0 Blog Start: For one of the blogs, you will write your position on the issues addressed in the readings. You are required to write a 500 word minimum post into the discussion forum starting a new thread. Your blog post is not to be just a summary of the readings (though at times you may need to summarize points briefly). You are to present your own views, presenting your arguments, and critiquing the authors of the readings. This is meant to provide a foundation for others to discuss. Blog Start is worth 50 points. NOTE: You must submit Blog Start TWO DAYS prior to the due date of the forum. The blog you are to write on is based on the first letter of last name (surname).

0 Discussion Posts: For each blog, you will post a response to either the person who started the thread or someone else who has already commented on that thread. Each post must be a MINIMUM of 100 words and there must be a minimum of 5 postings per forum. You may either write your own view critique or comments about the subject matter or you may write a response to someone that has already posted. However, the writings are to be based on the readings listed for that forum. The student will receive 10 points per blog (not per post) for completing the assignment. You must post a minimum of 5 times in order to get credit.

- Essays - There will be two essays due. The first is due at Mid-term and the second is due the last day of in class time (Friday before Finals Week). Each essay will address one of the issues brought forth in the Ethics Blogs (you will be developing the ideas you first begin in the Forums and developing those into a substantive analysis). Which of the topics from the Forums you write on is up to you (any of the first 5 Forums can be chosen for the first essay and any of the remaining five Forums can be chosen for the second essay). Specific details and advice for writing the essays will be given in class, but the general requirements are as follows:

0 Each essay is to be a minimum of 1000 words (roughly 5 pages).
0 Points will be awarded on accuracy of the facts of the topics being discussed; correctly describing, using, and explaining any moral theories or concepts; grammar and spelling; development of your (the student’s) argument for the conclusion you are defending. Note that the last is the most important. The essay is not meant to be a report or summary of an issue, but a reasoned, researched, argued defense of one’s position on the issue at hand.

0 Each essay will require a minimum of five sources from recent published, reviewed/fact-checked journal articles, books, or edited volumes (a list of examples will be provided in class as well as a demonstration of using Axe Library’s resources).

0 Each essay is worth 100 points.

If you wish to attach a syllabus, you may attach it to the end of this document as part of the packet.
Additional Questions

1. Additional resources required (e.g. library or multimedia resources, technology, space, major expense, etc.): None

2. Will any additional student fees be required (e.g. equipment, clothing, travel, licensing, etc.)? □ Yes ☒ No If "yes," please realize that it will need to gain approval of the President’s Council.

Please give the rationale for additional student fees: N/A

3. Is this course to be considered for Pitt State Pathway? ☒ Yes □ No

If “yes,” please indicate the University’s Pitt State Pathway Goals met by this course AND the assessment data that will be collected to measure these goals:

PHIL 315: Public Health Ethics is part of the PSU Pitt State Pathway. It fulfills the requirement for the Global Understanding and Civic Engagement with the Element of Social Responsibility within a Global Context.

- As global citizens, students need a comprehensive understanding of where they live and of the larger interconnected global system of which they are part, and on which they depend. While identifying commonalities among people and places is important, it is crucial that students understand and appreciate the diverse cultural, social, political, economic, and environmental contexts that create differences. Understanding the role of responsible citizens in their own community and beyond ensures effective and ethical participation at all levels. Students also need to understand how biological, physical, and chemical systems work, how they change naturally, and how they can change due to human involvement. Understanding the implications of the interaction between humans and non-human systems is essential for long-term decision-making (Learning Outcome: Students will explore global systems conscientiously).

- Companion Element: Social Responsibility

- Social responsibility within a global context is the ability to recognize one’s accountability to society – locally, nationally, and globally. This incorporates the importance of active citizenship through the application of concepts such as equity, inclusiveness, collaboration, and building constituency in government, civic institutions, business, and community at large. Competency in this element means:
  - Applying the concepts associated with active, responsible citizenship;
  - Analyzing the ethical, social, and environmental consequences of local, national, and global organizations;
  - Analyzing the historical consequences of local or national decisions on global systems;
  - Upon completion of this course, students will accomplish the following:
  - Analyses the roles and responsibilities of citizens at all levels.

Assessment will be conducted through multiple choice exams, short informal writings, and formal term papers. The exams will assess students’ understanding of the objective information - concepts, positions, theories, details of cases, policies, etc. The short writings and term papers will assess the students’ ability to analyze the information, develop a reasoned position on issues, and convey that position through writing. Please realize that this requirement will need to gain approval of the Pitt State Pathway Committee after it has been approved by Faculty Senate as a new course.

4. Will this course be required of any education majors? □ Yes ☒ No
   If “yes,” please realize that this requirement will need to have the approval of the Council for Teacher Education.

5. What additional costs will be required for this course (e.g. staffing, equipment, etc.)? None

PSU Catalog Course Description
Public Health Ethics provides an overview of the ethical concepts, theories, and approaches that apply to public health practice. Specific topics include, but are not limited to, ethical issues arising in individual freedom vs public good, paternalism, harm reduction, vaccination, pandemic planning and response, justice, and resource allocation. Legal and policy factors will also be considered related to ethical decision-making.

Course Description and Purpose
This course focuses on ethical issues implicated in a population-level approach to disease prevention and health promotion. Students will explore prominent theoretical approaches to public health ethics and will engage with several ethical tensions. The course starts with an introduction to ethical frameworks, theories, and historical references that elevate the ethics conversation to the global stage. The course will then link theory to practice as we delve deeper into ethical issues. We will consider ethical questions about the discipline of global public health and the roles of governments, academic institutions, organizations, health professions, and members of the public as stewards of health. Through readings, lectures, discussions, individual and group activities, students will gain a deeper understanding of the diverse international perspectives on the concepts of ethics and health as well as tools for articulating potential ethical dangers, prevention, and resolution.

Issues discussed include, but are not limited to:

- The use of coercive or intrusive public health interventions that restrict individual freedom, infringe upon individual privacy, and/or invite individual harm (or risks of harm).
- The possible justifications of paternalistic measures in societies or sub-populations that seemingly indulge in pleasurable yet unhealthy behaviors.
- The need to choose between the identifiable victims we can save with expensive measures here and now and the more numerous unidentified victims we could save in the future with the same monetary investment.
- The trade-offs between maximizing aggregate health benefits and addressing the special needs of vulnerable social sub-groups and individuals.
- Ethical issues in international pharmaceutical research.
- Ethical issues involving vaccination.
- Ethical issues in pandemic planning and response at local, national, and global levels.

Course Objectives
By the end of this course the student will be able to:

- Understand the conversation about public health ethics as an enterprise incorporating moral philosophy, bioethics, and evidence-based social sciences.
- Understand the moral interconnectedness of responsibility, duty and rights from an individual and collective perspective.
- Identify and clarify diverse moral norms and principles that underlie diverse convictions about public health ethics.
Subject moral norms and principles to dispassionate critical reasoning aimed at evaluating the force of underlying reasons for and against them.

Develop strong arguments for a complex global health ethical debate drawing from the terms covered in class.

Write clear and concise essays subjecting a issues of public health ethics to dispassionate ethical analysis.

**Public Health Ethics and PSU Pitt State Pathways**

PHIL 115: Public Health Ethics is part of the PSU Pitt State Pathway. It fulfills the requirement for the Global Understanding and Civic Engagement with the Element of Social Responsibility within a Global Context.

**Course Requirements and Grading**

The student's grade for this course will be based on the following:

- **Exams** - Each exam will be purely objective in nature and will assess whether you have come to understand the theories and arguments presented in the text and in class. The first exam will test for the material up until that date. The second exam will test for the material from the first exam until that date. And the third exam will cover the material from the second exam until the end of the semester. There is no comprehensive final exam for this course. Make-ups for the exams are given for University

4 of 7
approved events or legitimate medical reasons in which documentation is given. Students should contact me prior to missing an exam whenever possible. Make-up exams are usually essay and must be taken within one week of missing the scheduled exam or a zero grade will be assigned.

- **Discussion Forums/Ethics Blogging** - The ethics blogging assignments will be posted on the University's Canvas Discussion service. This is a discussion-based assignment. You will be discussing the material with the other students in the class. This is a two-part assignment — Blog-Start and Discussion-Posts.
  - **Blog Start**: For one of the blogs, you will write your position on the issues addressed in the readings. You are required to write a 500-word minimum post into the discussion forum starting a new thread. Your blog post is not to be just a summary of the readings (though at times you may need to summarize points briefly). You are to present your own views, presenting your arguments, and critiquing the authors of the readings. This is meant to provide a foundation for others to discuss. Blog-Start is worth 50 points. **NOTE: You must submit Blog Start TWO DAYS prior to the due date of the forum.** The blog you are to write on is based on the first letter of last name (surname) with the professor doing the first one:
    - Ethics Blog 1 - A-B
    - Ethics Blog 2 - C
    - Ethics Blog 3 - D
    - Ethics Blog 4 - E-H
    - Ethics Blog 5 - I-K
    - Ethics Blog 6 - L-M
    - Ethics Blog 7 - N-R
    - Ethics Blog 8 - S
    - Ethics Blog 9 - T-W
    - Ethics Blog 10 - X-Z
  - **Discussion Posts**: For each blog, you will post a response to either the person who started the thread or someone else who has already commented on that thread. Each post must be a MINIMUM of 100 words and there must be a minimum of 5 postings per forum. You may either write your own view critique or comments about the subject matter or you may write a response to someone that has already posted. However, the writings are to be based on the readings listed for that forum. The student will receive 10 points per blog (not per post) for completing the assignment. You must post a minimum of 5 times in order to get credit.

- **Essays** — There will be two essays due. The first is due at Mid-term and the second is due the last day of in class time (Friday before Finals Week). Each essay will address one of the issues brought forth in the Ethics Blogs (you will be developing the ideas you first begin in the Forums and developing those issues into a substantive analysis). Which of the topics from the Forums you write on is up to you (any of the first 5 Forums can be chosen for the first essay and any of the remaining five Forums can be chosen for the second essay). Specific details and advice for writing the essays will be given in class, but the general requirements are as follows:
  - Each essay is to be a minimum of 1000 words (roughly 5 pages).
  - Points will be awarded on accuracy of the facts of the topics being discussed; correctly describing, using, and explaining any moral theories or concepts; grammar and spelling; development on your (the student's) argument for the conclusion you are defending. Note that the last is the most important. The essay is not meant to be a report or summary of an issue, but a reasoned, researched, argued defense of one's position on the issue at hand.
  - Each essay will require a minimum of five sources from recent published, reviewed/fact-checked journal articles, books, or edited volumes (a list of examples will be provided in class as well as a demonstration of using Ace Library's resources).
  - Each essay is worth 100 points.

**Point Breakdown:**
- Exams — 4 @ 100 points each
- Ethics Blogging
- Blog-Start – 1 @ 50 points
- Discussion Posts – 10 @ 10 points each
- Essays – 2 @ 100 point each
- Total Course Points – 750
- No extra credit work will be assigned or accepted.

Grade Scale:
- A=750-675, B=674-600, C=599-525, D=524-450, F=449-0

Attendance:
- There is a fairly aggressive reading list for this course and it is a dialogue driven subject matter. You are expected to attend class regularly, have read the material for that day, and be willing to participate in the discussions of the assigned readings. Unless especially said otherwise, students are responsible for everything mentioned in both the lectures and readings.

Policy Concerning Technology in the Classroom during regular Class Time:
- Electronics (cell phones, laptops, tablets, etc.) are not permitted in lecture, during quizzes, or during exams. Please put them away before class begins. If you must use a computer for note-taking in lecture, you may apply for a waiver to this policy by emailing the professors in the first two weeks of class or have the Accommodations Office contact with the information.
- Earphones and headphones are to be taken on/off unless as indicated by Accommodation documentation.
- No photos are allowed to be taken in class without the express approval of the professor.

Policy Concerning Cell Phones during Exams:
- On exam days, you are not allowed to use any devices whatsoever. You will need a No. 2 pencil and a green scantron form (which can be obtained from the SGA office). All phones and other devices are to be turned off during exams. If you cell phone or other device rings, beeps, dings, or makes any other noises during the exam, you will receive a 0 (zero) for the exam.

Student Accommodations:
- Americans with Disabilities Act – Pittsburg State University adheres to the requirements of the Americans with Disabilities Act. If you need an accommodation under this Act due to a disability, contact the Center for Student Accommodations in the Bryant Student Health Center or call at 235-4309.

Academic Dishonesty Policy:
- Academic Dishonesty will not be tolerated in this course. This University regards academic dishonesty as an extremely serious matter, with serious consequences that range from probation to expulsion. Any act that violates the rights of another student in academic work, is disruptive of proper class order, or that involves the misrepresentation of your own work, will result in penalties up-to and including dismissal from the course with a failing grade. Scholastic dishonesty and academic misconduct include, but are not limited to, cheating on assignments or examinations; plagiarizing (which means misrepresenting as your own work any part of work done by another author); submitting the same or substantially the same paper to meet the requirements of more than one class without the consent of all of the instructors involved; depriving another student of necessary course materials; interfering with another student's work; or disruptive classroom behavior. [Note: disruptive behaviors include but are not limited to actions which interfere with the educational process and/or student learning, insubordination, and those behaviors which diminish or demean the authority a faculty member must enjoy to conduct a class.]
• Education at the university level requires intellectual integrity and trust between faculty and students. Professors are obliged to master their subject and present as fair an account of it as possible. For their part, students are obliged to make an honest effort to fulfill both the letter and the spirit of course requirements. Academic dishonesty violates both integrity and trust. It jeopardizes the effectiveness of the educational process and the reliability of publicly reported records of achievement.

• Academic dishonesty by a student is defined as unethical activity associated with course work or grades. It includes, but is not limited to:
  • Giving or receiving unauthorized aid on examinations.
  • Giving or receiving unauthorized aid in the preparation of notebooks, themes, reports, papers or any other assignments.
  • Submitting the same work for more than one course without the instructor’s permission.

Plagiarism

• Plagiarism is defined as using ideas or writings of another and claiming them as one’s own. Copying any material directly (be it the work of other students, professors, or colleagues) or copying information from print or electronic sources (including the internet) without explicitly acknowledging the true source of the material is plagiarism. Plagiarism also includes paraphrasing another individuals' ideas or concepts without acknowledging their work, or contribution. To avoid charges of plagiarism, students should follow the citation directions provided by the instructor and/or department in which the class is offered.

• Unless otherwise stated by the instructor, exams, quizzes, and out-of-class assignments are meant to be individual, rather than group, work. Hence, copying from other students’ quizzes or exams, as well as presenting as one’s own work an assignment prepared wholly or in part by another is in violation of academic honesty.

• The above guidelines do not preclude group study for exams, sharing of sources for research projects, or students discussing their ideas with other members of the class unless explicitly prohibited by the instructor. Since the violation of academic honesty strikes at the heart of the educational process, it is subject to the severest sanctions, up to and including receiving an "F" or "XF" (an "XF" indicates the "F" was the result of academic dishonesty) for the entire class and dismissal from the university.

• When an instructor has a reasonable good faith belief that a student(s) has committed academic misconduct, that instructor has the sole discretion to give the student an F on the assignment/test to which the student committed academic misconduct or an F for the entire course. If such an F negatively affects the student’s final grade in the course, that student(s) may appeal the final grade pursuant to the current Pittsburg State University Catalog’s Grade Appeal process.

• When the instructor wishes to impose an "XF", and/or more severe sanctions, he or she must first notify their department chair, dean, and the University’s Academic Honesty Committee Chairperson in writing. In addition, the same procedure applies if similar sanctions seem warranted for a student(s) or former student(s) who have assisted in a serious act of academic dishonesty.

No other department, college, or unit is affected by this proposal.

Proposed Course:
Course Number: PHIL 321

Title of Course: Religions of the West

Credit Hours: 3

Date first offered: 2021  (Semester/Year)  [ ] Fall  [x] Spring  [ ] Summer

(check all that apply)

Prerequisite: None

Course Description (as it will appear in the catalog): A study of religions and their philosophies commonly known as "western," from antiquity to the present. Religions covered include the varieties of Zoroastrianism, Judaism, Christianity, and Islam.

Purpose/Justification for Proposed Course: There are currently no PSU upperdivision courses which provide students with an advanced understanding of Western religions.

Objectives/Student Learning Outcomes (as it will appear in the syllabus)

1. Students should understand not only the diversity of Western religions but also the diversity within particular Western traditions.

2. Students should gain a basic understanding of the history, literature, and philosophy of each of the religions studied in the class.

3. Students should understand the place of religion in shaping human values towards each other, nonhuman animals, the environment, and the universe itself. The relevance of religion to social mores, ethics, aesthetics—all value laden enterprises—is a central concern of the course.

4. Religious studies should help one better understand and think about the human condition and the many conflicts worldwide both historically and in the present that have some basis in religious differences.

Request for New Course- Revised Summer 2019
5. Students should come away from Religions of the West with an appreciation for the systematic and sympathetic study of religion. Empirical studies indicate that one retains very little information from a class, but that attitudes about a class and its subject matter are more enduring. Students should appreciate the importance of the study of religion, not only as it pertains to the regimen of higher education, but also to the living of life in all of its fullness.

6. Students should appreciate the relation of religious studies to other academic disciplines. The study of religion involves, among other things, history, psychology, sociology, anthropology, linguistics, and philosophy. To understand the relation of religious studies to other disciplines is also to understand the divisions among disciplines. Thus, students should understand the distinctiveness of religious studies. It is not a declaration of faith in a particular religion or creed, nor is it simply reducible to other areas of inquiry.

Assessment Strategies [e.g., exams, projects, university rubric, etc. (as it will appear in the syllabus)]

This course will be offered for "writing to learn" credit. Writing will be used in principally three ways, (i) as a way for students to explore ideas in Western Religions, (ii), as a way to learn the material in the course, and (iii) as a way of formally presenting ideas. The first two uses of writing can be considered "informal." The third way of using writing is "formal" in the sense that students will be expected to write with the goal of communicating ideas to an academic audience of professionals in the field of philosophy. It is this model that the formal writing component of the course is designed to follow.

1. In order to pass the class, students must earn a grade of D or better in the class as a whole and C or better for the writing component of the course.

2. The final grade is figured as the percentage of the total points earned in the class. The total points possible is 500. The percentages for grades are as follows: A = at least 90% or 450 points; B = at least 80% or 400 points; C = at least 70% or 350; D = at least 300 points; F = at or below 299 points.

3. Points are awarded in three ways: Class attendance = X points for each class, total 100 points. (Students who enroll late will not be penalized for classes missed prior to their enrollment; however, points will not be awarded for any class period missed after one has enrolled.) Ten short in-class writing assignments worth a possible 10 points each = 100 points. Two formal papers worth a possible 150 each = 300 points. NB: Because a C or better for the writing component of the course is necessary for a passing grade in the class, it is necessary to score at least 280 points on the short writing and formal assignments in order to pass the class. Scoring 280 points on the writing portion of the course is not sufficient for a passing grade, but it is necessary.

4. The short in-class writing assignments cover the lectures and the reading. The dates for these in-class assignments are: X, Y, Z. The in-class assignments should be approximately one to two paragraphs in length, taking up about a page of paper. They are not graded for grammar or spelling but they will be graded on one's familiarity with the material under discussion. The in-class assignments will be returned the day of class following when the assignment was written.

5. Formal assignments should be at least 12 pages in length, typed, presented in 12 font with one inch margins. Grading criteria include grammar, spelling, and proper documentation of any sources cited. Referencing for the paper should follow a standard style, such as MLA, Chicago Manual of Style, or the guidelines of the American Psychological Association. Grading criteria also include clarity of presentation, knowledge of the material, and an understanding of the norms of academic writing. At a minimum, one should do one's best to fairly represent any position with which one disagrees and not resort to low and mean personal attacks. Arguments for or against a thesis should be, as much as possible, clearly delineated with objections anticipated and constructive proposals developed.
The formal writing assignments involve a three-step process. A rough draft of the paper will be turned in which the professor will read and return to the student. Afterwards, a final draft will be turned in which should represent an improvement on the rough draft taking into account the comments of the professor and any other feedback the student may have received in the meantime.

Request for Revision to Course
(Undergraduate Course Numbers through Course Number 699)

Department: GIT  College: COT  Submission Date: 3/02/20

Contact Person: Doug Younger  □ Faculty member  □ Chair

Revision Effective: 20WF (Semester/Year)

Offered: (check all that apply)
□ Fall  □ Spring  □ Summer

Is this revision related to, and/or affect, any other departments/college/unit curricula or programs at
Pittsburg State University?
□ Yes  □ No

Whether a “yes” or “no” response, please provide an explanation. Provide documentation of any discussions (e.g. copies
of e-mails, memos, etc.) that have occurred.
This course is not required by any other department/college/unit curricula. It is only a course for within the GIT
department.

Purpose/Justification for Revision to Course: GIT 450 has not been offered since 12WF. It was dropped to make room
for new courses in Digital Media and Web/Interactive Media when the department made major changes to the
curriculum. Some of this content has been absorbed into the GIT 350 Printing Technologies course but it is mostly
overlooked. The content will be condensed from a 3 credit course to a 1 credit course and focus only on paper
substrates and not include ink technologies. As a 1 credit course it also offers more flexibility as to when it can be
offered. The name change reflects the change to only paper content and is similar to industry workshops that include
similar content. The prerequisite is being dropped to allow students from other majors such as Art, Communication, or
Marketing to enroll in the course without prior knowledge.

Existing Course:
Course Number: GIT 450

Title of Course: Inks and Substrates

Credit Hours: 3

Prerequisite: GIT 350 Printing Technologies

Course Description (as it appears in the current catalog): Characteristics of paper and ink as related to print
reproduction. Examination and testing of materials during production.

Proposed Course:
Course Number: GIT 450

Title of Course: Paper Knowledge

Credit Hours: 4

Request for Revision to Course - Revised Summer 2019
Prerequisite: none

Course Description (as it will appear in the next catalog): Fundamentals of printing papers used in graphic design and print production.
Additional Questions

1. Is this course to be considered for PittState Pathway? □ Yes  ☒ No

   If "yes," please indicate the University’s PittState Pathway Goals met by this course AND the assessment data that will be collected to measure these goals:
   NA
   Please realize that this requirement will need to gain approval of the PittState Pathway Committee.

2. Will this course be required of any education majors? □ Yes  ☒ No

   If "yes," please realize that this requirement will need to have the approval of the Council for Teacher Education.

3. What additional costs will be required for revising this course (e.g. staffing, equipment, etc.)?

   There should be no additional materials costs associated with this course. The course will utilize existing materials and equipment within the GIT department. Depending on the staffing of this course, there is a possibility of need extra duty compensation to staff the course. This is not anticipated though.

Subject: Changes to the GIT BAS

Andy,

Attached is paperwork for changes I wish to make to the GIT BAS degree option. The changes I am proposing include changes to add course options from the TWL department. So, I am writing for your approval of these changes.

Basically the changes are from this:

Organization & Leadership (9 hours)
___ GIT-562 Graphics Cost Analysis and Estimating (3 hours)
___ GIT-680 Graphics Administration (3 hours)
___ TM-606 Industrial Supervision (3 hours)

changing to this:

Organization & Leadership (12 hours)
(choose 2-3 of the following)
__ GIT-562 Graphics Cost Analysis and Estimating (3 hours)  
or __ GIT-580 Sales and Customer Service (3 hours)  
or __ GIT-680 Graphics Administration (3 hours)  
(choose 1-2 of the following)  
__ TM-520 Leadership in the Workplace (3 hours)  
__ TM-606 Industrial Supervision (3 hours)  
__ TM-679 Presentation Skills (3 hours)  
__ HRD-596 Intro to Human Resource Development (3 hours)  

Adding these three courses (TM 520, TM 679, and HRD 596) would allow more flexibility in the courses the BAS students could choose. All would be applicable under the Organization and Leadership Area. We currently only have 7 students in our BAS program therefore the impact on these courses, especially since they would be choices and not required, should be minimal.

This area is being changed from 9 hours to 12 hours as the changes that were legislated last year did not include the full Pitt State Pathways which left this degree short of the 120 hour requirement.

Please let me know if you have questions or concerns about the use of these courses in this degree or let me know if you approve of these changes.

Thanks
Doug

Hi Doug,
This change looks fine from this end.
Let me know if you need anything else.

Subject: changes to BAS degree for Graphics and Imaging Technologies

Dr. Horner,

Graphics and Imaging Technologies would like to make changes to the Bachelor of Applied Science in Technology with an emphasis in Digital and Print Media. The changes do have a minor impact on courses within the Kelce College of Business so I am writing to receive permission from the KCOB to make these changes.

Currently, the BAS degree lists the following courses from the COB:

Business Support Courses (9 Hours)
___ MGT-330 Management and Organizational Behavior (3 hours)
___ MGT-430 Legal and Social Environment of Business (3 hours)
___ MGT-540 Human Resources Management (3 hours)
or ___ MKTG-330 Principles of Marketing (3 hours)

The change I am proposing is:

Business Support Courses (9 hours)
___ MGT-330 Management and Organizational Behavior (3 hours)
___ MGT-430 Legal and Social Environment of Business (3 hours)
___ MKTG-330 Principles of Marketing (3 hours)

This change maintains the number of hours from the KCOB at 9 hours but drops the use of the MGT 540 Human Resources Management course. This plan would simply require the BAS student to take the three courses listed (MGT 330, MGT 430 and MKTG 330). I have attached the full legislation sheet if you wish to review the entire degree plan.

There are only about 7-8 students currently in the GIT BAS program so the effect on the KCOB courses should be minimal.
I need to upload this for legislation by this Friday, March 6th.

Please reply to let me know if these changes are acceptable to the KCOB.

Sincerely,

Doug Younger
