GUS HR Position Inventory Report

(Updated 7/16/2017)

HRS has created a Zimbra briefcase – GUS HR Departments Report – to share GUS Cloud reports with department admins and other PSU staff who have a need the information. The GUS HR Position Inventory Report will provide department staff with GUS Cloud position numbers, incumbents and the GUS Cloud costing for the position as of the report date.

Please refer to the latest report for the most current information. Note that the report can be filtered to easily identify positions of interest.

Contact Michele Sexton (msexton@pittstate.edu or x. 4188) if you need access to the briefcase or have questions about the Position Inventory Report.
