

GusNET Setup for Android Secure Wireless

Select the Settings App.

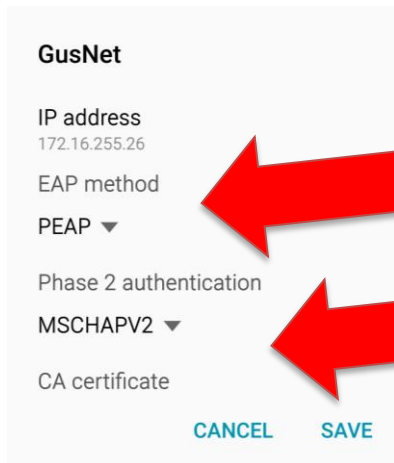

Click on Wi-Fi.

Click on GusNET.

Make sure that the EAP Method is on PEAP and the Phase 2 Authentication is MSCHAPV2

In the Identity box, type in your username. This is the username you use to log in to your work computer.

Enter the password that you use to log in to your work computer in the Password box.

Click Connect.

GusNET will set up the connection.
