

February 28, 2024

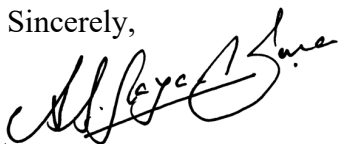

Dear Teacher/Advisor,

Pittsburg State University Mathematics Department and the Mo-Kan Council of Teachers of Mathematics are sponsoring the 2024 data visualization poster competition.

Once again, the competition will be limited to grades 10 through 12. Your school is one of the 100 schools we selected for the competition on the basis of your participation in PSU activities in the past. Details are given in the enclosure, along with the entry form. Due date is Friday, March 22. Please check the given web pages to get some idea of the level of difficulty and professionalism in these posters. The best three posters will be sent to the national competition. If you are interested in submitting posters for K-9 please send it to the national competition, <https://www.amstat.org/education/asa-data-visualization-poster-competition-for-grades-k-12->.

These projects should not be time consuming but motivating students for science and other areas of learning. It will be nice for you to communicate with teachers from other disciplines and incorporate statistics with their areas. If you have any questions, please feel free to contact Dr. Ananda Jayawardhana ([ajayawardhana@pittstate.edu](mailto:ajayawardhana@pittstate.edu)). We eagerly look forward to your participation.

Sincerely,

A handwritten signature in black ink, appearing to read 'Ananda Jayawardhana', with a stylized flourish at the end.

Ananda Jayawardhana, PhD  
Coordinator  
University Professor of Mathematics
