Introduction

This report is provided in compliance with the Jeanne Clery Disclosure of Campus Security Policy and Crime Statistics Act, as amended. It provides students and employees of Pittsburg State University ("University") with information on: the University's security arrangements, policies and procedures; programs that provide education on such things as drug and alcohol abuse, awareness of various kinds of sex offenses, and the prevention of crime generally; and procedures the University will take to notify the campus community in the event of an emergency. Its purpose is to provide students and employees with information that will help them make informed decisions relating to their own safety and the safety of others.

Policy for Preparing the Annual Report

This report is prepared by the Associate Vice President & Dean of Students in cooperation with local law enforcement authorities and includes information provided by them as well as by the University's campus security authorities and various other elements of the University. Each year an e-mail notification is made to all enrolled students and employees that provides the website link to access this report. Prospective students and employees are also notified of the report's availability. Hard copies of the report may also be obtained at no cost by contacting Dr. Jon Bartlow, 101 Overman Student Center, Pittsburg State University, Pittsburg, Kansas (620)-235-4945. The University is committed to taking the actions necessary to provide a safe and secure working/learning environment for all students and staff. As a member of the campus community, you can feel safe and comfortable knowing that security procedures are in place that represent best practices in the field and are constantly tested and re-evaluated for their effectiveness.

General Safety and Security Policies

Campus Security Personnel & Relationship with Local Law Enforcement

The PSU Police and Public Safety is responsible for campus safety at the University.

PSU police officers are commissioned by authority of the State of Kansas under K.S.A. 76-726 and have the same law enforcement powers and responsibilities as the local police or sheriff in your home community. The officers are trained at the Kansas Law Enforcement Training Center and additionally are required to complete 40 hours of annual retraining to maintain state certification.

The PSU Police and Public Safety Department provides several service-oriented functions to the University community consisting of nearly 6,000 students, faculty and staff. The University Police Department provides 24-hour-a-day patrol protection to the campus, PSU Foundation property, parking lots, residence halls, as well as the fraternities and sororities.

Officers are responsible for a full range of public safety services, including all crime reports, investigations, medical emergencies, fire emergencies, traffic accidents, enforcement of laws

regulating underage drinking, the use of controlled substances, weapons, and all other incidents requiring police assistance.

University Police prepare and submit Standard Offense reports to the Kansas Bureau of Investigation to which all law enforcement departments in the state have access. As a courtesy, University Police shares information on arrests and serious crimes with the City of Pittsburg Police. The serial numbers of all vehicles and office equipment stolen from campus are reported nationwide through the National Crime Information Center (NCIC).

University Police have complete police authority to apprehend and arrest anyone involved in illegal acts on-campus within their geographical jurisdiction, or at the lawful request of another agency. If a University student commits minor offenses involving University rules and regulations, the campus police may also refer the individual for disciplinary action by the university. The prosecution of all criminal offenses, both felony and misdemeanor, are conducted at either municipal court for the City of Pittsburg or District Court for Crawford County, Kansas.

PSU Police and Public Safety personnel work closely with local, state, and federal police agencies and have direct radio communication with the City of Pittsburg Police and the Crawford County Sheriff's Office. University Police is also a part of the Crawford County 911 Emergency System.

By mutual agreement with state and federal agencies, PSU Police and Public Safety maintain a NLETS terminal (National Law Enforcement Telecommunications System). Through this system police personnel can access the National Crime Information Computer system as well as the Kansas Information Enforcement System. These computer databases are used for accessing criminal history data, driver/vehicle identification information, as well as other local, state and federal law enforcement information.

Campus Security Authorities

The University has designated certain officials to serve as campus security authorities. Reports of criminal activity can be made to these officials. They in turn will ensure that the crimes are reported for collection as part of the University's annual report of crime statistics. The campus security authorities to whom the University would prefer that crimes be reported are listed below.

- Athletics Director at 620-235-4389
- Fraternity and Sorority Life Advisor at 620-235-4960
- PSU Police and Public Safety at 620-235-4624
- Associate VP / Dean of Students at 620-235-4945
- Vice President of Student Affairs and Enrollment Management at 620-235-4231
- Director of University Housing and Residence Life at 620-235-4731
- Director of Institutional Equity and Title IX Coordinator at 620-235-4189
- Director of Campus Activities and Overman Student Center at 620-235-4794

Reporting a Crime or Emergency

The University encourages accurate and prompt reporting of all criminal actions, emergencies, or other incidents occurring on campus, on other property owned by the University, or on nearby public property to the appropriate administrator and appropriate police agencies. Such a report is encouraged when the victim of a crime elects to, or is unable to, make such a report.

Students, staff, and visitors should also report situations to one of the campus security authorities identified above. Once reported, the individual may also be encouraged to report the situation to the appropriate police agency. If requested, a University staff member will assist in making the report to police.

Anonymous incident reports can also be made by accessing the University's Incident Reporting system at <https://cm.maxient.com/reporting.php?PittsburgStateUniv>.

Confidential Reporting

The University will protect the confidentiality of victims. Only those with a need to know the identity for purposes of investigating the crime, assisting the victim or disciplining the perpetrator will know the victim's identity.

If you are the victim of a crime and do not want to pursue action within the University discipline process or the criminal justice system, you may still want to consider making an incident report. With your permission, the Executive Director of University Police and Public Safety (or designee) or the Associate Vice President / Dean of Students can file an incident report on the details of the incident without pursuing action. With such information, the University can keep an accurate record of the number of incidents involving students, determine where there is a pattern of crime with regard to a particular location, method, or assailant, and alert the campus community to potential danger. Reports filed in this manner are counted and disclosed in the annual crimes statistics for the institution.

The University encourages its professional counselors, if and when they deem it appropriate, to inform the person they are counseling to report crimes on a voluntary, confidential basis for inclusion in the annual report of crime statistics. The University does not have pastoral counselors.

Security of and Access to Campus Facilities

PSU Police and Public Safety control access to University facilities. After-hours access to academic buildings is allowed only to personnel authorized to have access. All departments are encouraged to develop and use a building pass procedure to authorize after-hour access to facilities by students. The University Housing and Residence Life Office maintains a 24-hour lock-up policy for all residence halls. Officers make periodic building checks of residential housing facilities after 10 p.m. PSU Police and Public Safety works closely with the University Physical Plant to maintain appropriate security of key inventory.

During business hours, the University (excluding residence halls) will be accessible to all students, parents, employees, contractors, visitors and university guests. During non-business hours or during periods of extended closing, access to all University facilities is by key, if issued, or by admittance by PSU Police and Public Safety or University Housing and Residence Life staff.

Residence halls are secured 24 hours a day. Over extended breaks, the doors of all halls will be secured around the clock and will be equipped with a lock separate from the regular key issued to resident students. Some facilities may have individual hours, which may vary at different times of the year. Examples are the Student Recreation Center, the Axe Library, and the Overman Student Center. In these cases, the facilities will be secured according to schedules developed by the department responsible for the facility. Emergencies may necessitate changes or alterations to any posted schedules. Surveillance cameras are in place in key areas of the campus and within certain facilities. Images captured by these cameras are stored digitally and monitored by PSU Police and Public Safety dispatch personnel.

Security Considerations in the Maintenance of Facilities

The Physical Plant maintains the University buildings and grounds with a concern for safety and security. Staff inspect campus facilities regularly, promptly make repairs affecting safety and security, and respond to reports of potential safety and security hazards, such as broken windows and locks. PSU Police and Public Safety assists Physical Plant personnel by reporting potential safety and security hazards. Students, as well as faculty and staff, may also call the Physical Plant at (620) 235-4779 to report any safety or security hazards.

Areas that are revealed as problematic have security surveys conducted of them. These surveys examine security issues such as landscaping, locks, alarms, lighting, and communications. Administrators from Academic Affairs, Business, Finance and Facilities, Student Affairs and Enrollment Management, Physical Plant, University Housing and Residence Life, University Police and Public Safety, and other concerned areas review these results.

Educational Programs Related to Security Awareness and Prevention of Criminal Activity

The University seeks to enhance the security of its campus and the members of the campus community by periodically presenting educational programs to inform students and employees about campus security procedures and practices, to encourage students and employees to be responsible for their own security and the security of others and to inform them about the prevention of crimes. These programs are discussed below.

PSU Police and Public Safety sponsors programs on crime prevention. Additionally, scheduled and unscheduled security surveys are conducted with the goal of providing recommendations for improvement in lighting needs, landscaping and procedural changes.

The main goal is to prevent crime before it happens using the following general areas:

1. Auto Safety - theft prevention and security
2. Bicycle Security - safety and security measures
3. Key Control - room and building security
4. Operation Identification - property engraving/recording
5. Crime Awareness Programs - prevent becoming a victim

The Department actively participates in student programs on alcohol awareness, sexual assault awareness and campus safety. University Police Officers serve on university committees in these areas.

Crime Prevention Programs on personal safety and theft prevention are also sponsored by various campus organizations throughout the year. University personnel facilitate programs for student, parent, faculty, and new employee orientations, student organizations, community organizations, in addition to programs for University Housing and Residence Life Resident Assistants and residence hall students providing a variety of educational strategies

and tips on how to protect themselves from sexual assault, theft and other crimes throughout the year.

Monitoring Off Campus Locations of Recognized Student Organizations

The University monitors and records, through local police agencies, any criminal activity in which students have engaged at off-campus locations of student organizations officially recognized by the University, including student organizations with off-campus housing facilities.

Disclosure of the Outcome of a Crime of Violence or Non-Forcible Sex Offense

Upon written request, the University will disclose to the alleged victim of a crime of violence (as that term is defined in section 16 of title 18, United States Code), or a non-forcible sex offense, the report on the results of any disciplinary proceeding conducted by the University against a student who is the alleged perpetrator of such crime or offense. If the alleged victim is deceased as a result of such crime or offense, the next of kin of such victim shall be treated as the alleged victim for purposes of the paragraph.

The previous paragraph does not apply to victims of dating violence, domestic violence, sexual assault, or stalking because under the Violence Against Women Act both the accused and accuser in these cases are given the results without the need to make a written request.

Drug and Alcohol Policy

PSU seeks to encourage and sustain an academic environment that both respects individual freedom and promotes the health, safety and welfare of all members of its community. In keeping with these objectives, the University has established policies and guidelines conforming to the laws of Kansas and the policies of the Kansas Board of Regents regulating the possession, sale and consumption of alcoholic beverages on the University campus.

The University is committed to creating and maintaining an environment that is free of alcohol abuse. The University prohibits the possession, use, and sale of alcohol beverage on campus or as any part of the University's activities, unless it is done so in accordance with applicable University policies, and it also enforces the state's underage drinking laws.

The University also enforces federal and state drug laws. The possession, sale, manufacture or distribution of illegal drugs is prohibited on campus or as any part of the University's activities. Violators of the University's policies or federal and state laws regarding illegal drugs will be subject to disciplinary action and possibly criminal prosecution.

It is the policy of PSU that its workplace shall be free from the illegal use, possession, or distribution of controlled substances (as defined in the Controlled Substances Act, Chapter 13, Title 21 of the United States Code) by the officers and employees of the University,

including faculty, other unclassified staff, classified staff, and student employees. Any officer or employee of the University, found to be illegally using, possessing or distributing controlled substances at the workplace of the University, regardless of the site of the workplace, shall be subject to disciplinary action in accordance with applicable policies of the State of Kansas, the Board of Regents, and Pittsburg State University. Officers and employees are reminded that illegal use, possession, or distribution of controlled substances may also subject individuals to criminal prosecution.

Drug and Alcohol Abuse Prevention Program

In compliance with the Drug Free Schools and Communities Act (DFSCA), the University has a drug and alcohol abuse and prevention program, which includes an annual notification to students and employees regarding certain drug/alcohol-related information (such as legal sanctions for violations of applicable laws, health risks, etc.) and a biennial review of this program to evaluate its effectiveness and assess whether sanctions are being consistently enforced. For more information, see below.

- Student alcohol/drug policy (Article 24 & 25): <https://www.pittstate.edu/studentlife/code-of-student-rights-and-responsibilities.html>

Consistent with its educational mission, the University also assists its members in finding alternatives to alcoholic beverages for promoting social interaction and stress reduction and provides services and resources for community members who experience alcohol-related difficulties.

A complete text of "Pittsburg State University Policy on Prevention of Alcohol Abuse and Drug Use" is available at <https://www.pittstate.edu/president/policies/policy-on-prevention-of-alcohol-abuse-and-drug-use.html> or at the following campus locations: Office of Human Resources, Office of Student Affairs and Enrollment Management, and University Police.

Students and employees of Pittsburg State University should be aware and informed that alcohol counseling, treatment or re-entry programs are available to students or employees. Acute alcohol counseling services are available for students at the Bryant Student Health Center. This is an excellent source of information about other appropriate resources for counseling and treatment and can provide further information about health problems and treatment related to alcohol problems. Faculty and staff members may contact the State Employee Assistance Program, a 24-hour toll free assistance line (1-888-275-1205 option 7) for a referral. If referred through the Employee Assistance Program, the first counseling session is paid by the State. Consent (as it relates to sexual activity)	The institution has determined, based on good-faith research, that Kansas law does not define the term consent (as it relates to sexual activity).

University Definition of Consent

The University uses the following definition of consent in its sexual misconduct policy for the purpose of determining whether sexual violence (including sexual assault) has occurred:

A freely and affirmatively communicated willingness to participate in sexual activity, expressed either by words or clear, unambiguous actions. It is the responsibility of the initiator of the sexual activity to ensure he or she has the other person’s consent to engage in sexual activity. Consent must be present throughout the sexual activity by all parties involved. At any time, a participant can communicate that he or she no longer consents to continuing the activity.

Consent may never be—

- obtained through the use of force, coercion, intimidation, or manipulation or if the victim/survivor is mentally or physically disabled or incapacitated, including through the use of drugs or alcohol, or,
- assumed because of the existence of a dating relationship between the persons involved or due to the existence of a current or previous sexual relationship between the persons.

Risk Reduction

If you find yourself in an uncomfortable sexual situation, these suggestions may help you reduce your risk:

- Make your limits known before going too far.
- You can withdraw consent to sexual activity at any time. Do not be afraid to tell a sexual aggressor “NO” clearly and loudly.
- Try to remove yourself from the physical presence of a sexual aggressor. Be direct as possible about wanting to leave the environment.
- Grab someone nearby and ask them for help.
- Be responsible about your alcohol and/or drug use. Alcohol and drugs can lower your sexual inhibitions and may make you vulnerable to someone who views an intoxicated/high person as a sexual opportunity.
- Attend large parties with friends you trust. Watch out for your friends and ask that they watch out for you.
- Be aware of someone trying to slip you an incapacitating “rape drug” like Rohypnol or GHB.

If you find yourself in the position of being the initiator of sexual behavior, these suggestions may help you to reduce your risk of being accused of sexual assault or another sexual crime:

- Remember that you owe sexual respect to the other person.
- Don’t make assumptions about the other person’s consent or about how far they are willing to go.
- Remember that consent to one form of sexual activity does not necessarily imply consent to another form of sexual behavior.
- If your partner expresses a withdrawal of consent, stop immediately.
- Clearly communicate your sexual intentions so that the other person has a chance to clearly tell you their intentions.
- Consider “mixed messages” a clear sign that the other person is uncomfortable with the situation and may not be ready to progress sexually.
- Don’t take advantage of someone who is drunk or on drugs, even if they knowingly and intentionally put themselves in that state. Further, don’t be afraid to step in if you see someone else trying to take advantage of a nearly incapacitated person.
- Be aware of the signs of incapacitation, such as slurred speech, bloodshot eyes, vomiting, unusual behavior, passing out, staggering, etc.

It is also important to be aware of the warning signs of an abusive person. Some examples include: past abuse; threats of violence or abuse; breaking objects; using force during an argument; jealousy; controlling behavior; quick involvement; unrealistic expectations; isolation; blames others for problems; hypersensitivity; cruelty to animals or children; “playful” use of force during sex; Jekyll-and-Hyde personality.

Bystander Intervention

In addition to reporting incidents to appropriate authorities, below are some ways in which individuals can take safe and positive steps to prevent harm and intervene when there is a risk of dating violence, domestic violence, sexual assault, or stalking against another person.

- Look out for those around you.
- Realize that it is important to intervene to help others.
- Treat everyone respectfully. Do not be hostile or an antagonist.
- Be confident when intervening.
- Recruit help from others if necessary.

- Be honest and direct.
- Keep yourself safe.
- If things get out of hand, don't hesitate to contact the police.

Other Information Covered by the PPAP

The PPAP also provides information on possible sanctions and protective measures that may be imposed following a determination that an offense of dating violence, domestic violence, sexual assault, or stalking has occurred, an explanation of the disciplinary procedures that will be followed when one of these offenses is alleged, the rights of the parties in such a proceeding, available resources, and other pertinent information. Much of this information is set forth in the upcoming sections of this security report.

Ongoing Prevention and Awareness Campaign:

The University also conducts an Ongoing Prevention and Awareness Campaign (OPAC) aimed at all students and employees. This campaign covers the same material as provided in the PPAP, but is intended to increase the understanding of students and employees on these topics and to improve their skills for addressing the offenses of dating violence, domestic violence, sexual assault and stalking.

2. The importance of preserving evidence that may be necessary to prove the offense in a criminal proceeding or disciplinary action or to obtain a protective order.
3. The victim's options regarding notification to law enforcement, which are: (a) the option to notify either on-campus or local police; (b) the option to be assisted by campus security authorities in notifying law enforcement if the victim so chooses (the institution is obligated to comply with such a request if it is made); and (c) the option to decline to notify such authorities.
4. Where applicable, the rights of victims and the institution's responsibilities regarding orders of protection, no-contact orders, restraining orders, or similar lawful orders issued by a criminal, civil, or tribal court.

Preservation of Evidence & Forensic Examinations

Victims of physical assault are advised to not remove clothing items worn during or following an assault, as they frequently contain valuable fiber, hair, and fluid evidence. Don't bathe or wash, or otherwise clean the environment in which the assault occurred. You can obtain a forensic examination at Mercy Hospital Pittsburg, 1 Mount Carmel Place, Pittsburg, Kansas 66762 , 620-231-6100.

Completing a forensic examination does not require you to file a police report, but having a forensic examination will help preserve evidence in case you decide at a later date to file a police report.

Victims are also advised to retain evidence in electronic formats (e.g., text messages, emails, photos, social media posts, screenshots, etc.). Such evidence is valuable in all situations, and it may be the only type of evidence available in instances of stalking.

Security/Law Enforcement & How to Make a Police Report

- Pittsburg State University Police and Public Safety, (620) 235-4624
- City of Pittsburg Police Department, 201 N. Pine Street, Pittsburg, Kansas 66762, (620) 231-1700
- To make a police report, a victim should contact the local police agency listed above either by phone or in-person. The victim should provide as much information as possible, including name, address, and when and what occurred, to the best of the victim's ability. You may request that the police investigation be conducted by a police officer of your gender (i.e. a female police officer for a female student, a male police officer for a male student) if available. As a victim of rape, acquaintance rape, domestic violence, dating violence, sexual assault or stalking, your name will not be released to the news media. For Sexual Assault Nurse Exam (SANE) services, you can call Safehouse Crisis Center at their 24-hour hotline number: 800-794-9148. A certified advocate can help schedule the exam with a certified SANE nurse that will be using the Sexual Assault Kit required for evidence in cases of sexual assault. This is done free of charge to the victim. You should contact Safehouse and/or the hospital as soon as it is safe and possible. PSU Police and Public Safety, City of Pittsburg Police, or Crawford County Sheriff's Department will be able to arrange transportation to the hospital as soon as an assault is reported.

Information about Legal Protection Orders

In Kansas, victims may obtain an Order of Protection, which provides protective relief for victims of domestic violence, stalking, or sexual assault. Information about Orders of Protection may be found at: <https://www.kansasjudicialcouncil.org/legal-forms/protection-orders>.

A protection order may be obtained by filing a petition with the court. Courts can issue two types of orders: Protection from Abuse or a Protection from Stalking, Sexual Assault, or Human Trafficking. Additional information about the orders may be found at: <https://www.kansasjudicialcouncil.org/legal-forms/protection-orders>.

Assistance with filing for an Order of Protection can be received from the following offices in Pittsburg:

When a protection order is granted, it is enforceable nationwide. If you have obtained a protection order and need it to be enforced in your area, you should contact the local police department.

The institution will also enforce any temporary restraining order or other no contact order against the alleged perpetrator from a criminal, civil, or tribal court. Any student or employee who has a protection order or no contact order should notify the Title IX Coordinator and provide a copy of the restraining order so that it may be kept on file with the institution and can be enforced on campus, if necessary. Upon learning of any orders, the institution will take all reasonable and legal action to implement the order.

The institution does not issue legal orders of protection. However, as a matter of institutional policy, the institution may impose a no-contact order between individuals in appropriate circumstances. The institution may also issue a “no trespass warning” if information available leads to a reasonable conclusion that an individual is likely to cause harm to any member of the campus community. A person found to be in violation of a No Trespass Warning may be arrested and criminally charged.

Available Victim Services:

Victims will be provided written notification about existing counseling, health, mental health, victim advocacy, legal assistance, visa and immigration assistance, student financial aid, and other services available to them, both within the University and in the surrounding community. Accommodations and Protective Measures:

The University will provide written notification to victims about options for, and available assistance in, changing academic, living, transportation, and working situations or protective measures. If victims request these accommodations or protective measures and they are reasonably available the University is obligated to provide them, regardless of whether the victim chooses to report the crime to campus security or local law enforcement.

Requests for accommodations or protective measures should be made to Jamie Lynn Blum, Title IX Coordinator, 620-235-4189, jamie.blum@pittstate.edu, titleix@pittstate.edu, 221 Russ Hall, 1701 S Broadway St, Pittsburg, KS 66762. Title IX officials will assist with the implementation of any potential accommodations or protective measures.

When determining the reasonableness of such a request, the University may consider, among other factors, the following:

- The specific need expressed by the complainant.
- The age of the students involved.
- The severity or pervasiveness of the allegations
- Any continuing effects on the complainant
- Whether the complainant and alleged perpetrator share the same class or job location.
- Whether other judicial measures have been taken to protect the complainant (e.g., civil protection orders).

The University will maintain as confidential any accommodations or protective measures provided a victim to the extent that maintaining confidentiality would not impair the University's ability to provide them. However, there may be times when certain information must be disclosed to a third party in order to implement the accommodation or protective measure. Such decisions will be made by the University in light of the surrounding circumstances, and disclosures of this nature will be limited so that only the information

necessary to implement the accommodation or protective measure is provided. In the event it is necessary to disclose information about a victim in order to provide an accommodation or protective order, the University will inform the victim of that necessity prior to the disclosure, including which information will be shared, with whom it will be shared and why.

Procedures for Disciplinary Action:

Allegations of domestic violence, dating violence, sexual assault, or stalking will be processed through the University's Title IX Policy, Sexual Misconduct Policy, or other relevant policy (such as the faculty and staff handbook) as appropriate to the allegations and the related complaint resolution procedures.

The complaint resolution procedures are invoked once a report is made to one of the following individuals:

Jamie Lynn Blum
Title IX Coordinator/Director of Institutional Equity
620-235-4189
218 Russ Hall
Email: jamie.blum@pittstate.edu or titleix@pittstate.edu

Reports may be made in-person, electronically, by phone, etc. An electronic form available at <https://cm.maxient.com/reporting.php?PittsburgStateUniv> can also be used to file a report.

Once a formal complaint is made, the Title IX Coordinator, or other University employee as appropriate, will provide notice to the parties of the investigation, including a description of the process to be utilized, the identities of the parties, the conduct at issue, and the date and location of the alleged incident.

During the investigation, the complainant and respondent will each have an equal opportunity to describe the situation and present witnesses, including both fact and expert witnesses, and other supporting evidence. The investigator(s) will review the statements and evidence presented and may, depending on the circumstances, interview others with relevant knowledge, review documentary materials, and take any other appropriate action to gather and consider information relevant to the complaint. Prior to the conclusion of the investigation, both parties will be provided an opportunity to review the evidence gathered during the investigation that is directly related to the allegations raised in the formal complaint. Upon completion of the investigation, both parties will be given a copy of an investigation report.

In Title IX cases, a live hearing will be conducted to make a determination as to whether any allegations in the complaint were found to be substantiated by a preponderance of the evidence. During the hearing, each party's advisor will be permitted to ask the other party and any witnesses all relevant questions and follow-up questions including those bearing on credibility. The decision maker(s) will issue a written determination of responsibility, a statement of any disciplinary sanctions and whether any remedies will be provided to the complainant, and a description of the procedures and permissible grounds for appeal. The parties will be notified of this determination in writing within five (5) days of it being made.

The University strives to complete investigations of this nature within ninety (90) calendar days.

Both parties have an equal opportunity to appeal the determination by filing a written appeal with the Associate Vice President and Dean of Students within five (5) days of being notified of the outcome of the investigation. The non-appealing party will be notified of the appeal and permitted to submit a written statement in response. The Associate Vice President and Dean of Students will resolve the appeal within ten (10) days of receiving it, and may take any and all actions that he/she determines to be in the interest of a fair and just decision.

At any time prior to reaching a determination of responsibility, the University may, at the request of either the complainant or respondent, facilitate a voluntary informal resolution process, such as mediation, that does not involve a full investigation and adjudication. The University cannot offer an informal resolution process unless a formal complaint is filed, and the University must obtain the parties' voluntary, written consent to the informal resolution process.

The University will not require as a condition of enrollment (or continuing enrollment or enjoyment of any other right) waiver of the right to an investigation and adjudication of formal complaints. Additionally, the University will not require the parties to participate in an informal resolution process.

To proceed with informal resolution, the University must provide the parties with written notice which discloses:

- The allegation(s),
- The requirements of the informal resolution process,
- Prior to agreeing to resolution, any party has the right to withdraw from the informal resolution process and resume the grievance process with respect to the formal complaint, and
- Any consequences resulting from participating in the informal resolution process, including the records which will be maintained or could be shared.

Rights of the Parties in an Institutional Proceeding:

During the course of the process described in the previous section, both the accuser and the individual accused of the offense are entitled to:

1. A prompt, fair and impartial process from the initial investigation to the final result.
 - A prompt, fair and impartial process is one that is:
 - Completed within reasonably prompt timeframes designated by the institution's policy, including a process that allows for the extension of timeframes for good cause, with written notice to the accuser and the accused of the delay and the reason for the delay.
 - Conducted in a manner that:
 - Is consistent with the institution's policies and transparent to the accuser and the accused.
 - Includes timely notice of meetings at which the accuser or accused, or both, may be present; and

- Provides timely access to the accuser, the accused and appropriate officials to any information that will be used during the informal and formal disciplinary meetings and hearings.
 - Conducted by officials who do not have a conflict of interest or bias for or against the accuser or the accused.
2. Proceedings conducted by officials who, at a minimum, receive annual training on the issues related to dating violence, domestic violence, sexual assault, and stalking and on how to conduct an investigation and hearing process that protects the safety of victims and promotes accountability.
- Such training addresses topics such as the definition of sexual harassment; the scope of the University’s education programs and activities; how to conduct investigations, hearings, and appeals and informal resolutions (as applicable); relevant evidence and how it should be used during a proceeding; proper techniques for questioning witnesses; basic procedural rules for conducting a proceeding; and avoiding actual and perceived conflicts of interest.

PSU Title IX Officials regularly attend Title IX trainings offered annually by ATIXA and SUNY. These training include multi-day sessions as well as virtual trainings. The following is a brief list of ATIXA and SUNY offered trainings attended:

- **Annual Title IX Training for Coordinators, Investigators, and Title IX Team Members:**
Title IX training focused on institutional response to sexual harassment for Title IX coordinators, deputy coordinators, investigators, hearing officers and other members of institutional Title IX teams. This annual training includes a discussion of key case law updates and the latest guidance from the Department of Education.
 - **Title IX Training - College & University Advisors Training**
The program focuses on the important role of appointed advisors in the hearing phase of the Title IX process, including the advisor’s role in conducting cross-examination at the hearing and avoiding foreseeable issues.
3. The same opportunities to have others present during any institutional disciplinary proceeding, including the opportunity to be accompanied to any related meeting or proceeding by the advisor of their choice. The institution may not limit the choice of advisor, but may establish limits regarding the extent to which that advisor may participate in the proceeding, as long as those limits apply equally to both parties.
4. Have the outcome determined using the preponderance of the evidence standard.
5. Simultaneous, written notification of the results of the proceeding, any procedures for either party to appeal the result, any change to the result, and when the result becomes final. For this purpose, “result” means “any initial, interim and final decision by an

official or entity authorized to resolve disciplinary matters” and must include the rationale for reaching the result and any sanctions imposed.

Possible Sanctions or Protective Measures that the University May Impose for Dating Violence, Domestic Violence, Sexual Assault or Stalking Offenses:

Following a final determination in the institution’s disciplinary proceeding that dating violence, domestic violence, sexual assault, or stalking has been committed, the institution may impose a sanction depending on the mitigating and aggravating circumstances involved.

The purposes of imposing sanctions are twofold: to protect the University community from behaviors that are detrimental to the educational process of the community; and to assist students and student organizations in identifying acceptable parameters of their activities and consequences of future behaviors. The severity of the sanctions imposed is intended to correspond with the severity or frequency of violation, as well as the willingness of the accused to recommit to good citizenship through behaviors that fall within the conduct regulations of the University. The following disciplinary sanctions may be imposed upon students, or student organizations, found responsible of a violation either singly and/or in combination:

- Expulsion
- Suspension
- Residence Hall
- Disciplinary Probation
- Disciplinary Warning
- Restitution
- Suspension of the Privileges of a Registered Student Organization
- Termination of the Registration of a Registered Student Organization
- Specifically Defined Sanction

Note: More information about the specific of each sanction can found by accessing Article 34 of the Student Conduct Code

In an effort to protect those directly involved in an alleged incident of sexual harassment, supportive measures may be implemented where reasonably available. These measures may include, but are not limited to:

- Mutual no-contact order
- Change in on-campus housing or on-campus work locations
- Modifications of work or course schedules
- Altering deadlines or other course-related adjustments
- Campus escorts
- Leaves of absence
- Referral to counseling, medical, and/or other healthcare services
- Referral to community-based services providers
- Safety planning

Publicly Available Recordkeeping:

The University will complete any publicly available recordkeeping, including Clery Act reporting and disclosures, without the inclusion of personally identifiable information about victims of dating violence, domestic violence, sexual assault, and stalking who make reports of such to the University to the extent permitted by law.

Victims to Receive Written Notification of Rights:

When a student or employee reports to the University that he or she has been a victim of dating violence, domestic violence, sexual assault, or stalking, whether the offense occurred on or off campus, the University will provide the student or employee a written explanation of his or her rights and options as described in the paragraphs above.

Sex Offender Registration Program:

The Campus Sex Crimes Prevention Act of 2000 requires institutions of higher education to advise members of the campus community where they can obtain information provided by the state concerning registered sex offenders. It also requires sex offenders to notify the state of each institution of higher education in the state at which they are employed or enrolled or carrying on a vocation. The state is then required to notify the University of any such information it receives. Anyone interested in determining whether such persons are on this campus may do so by contacting the Pittsburg State University Police and Public Safety at Pittsburg State University Police and Public Safety . State registry of sex offender information may be accessed at the following link: <http://www.kbi.ks.gov/registeredoffender/>

Timely Warnings and Emergency Response

Timely Warnings

In the event of criminal activity occurring either on campus or off campus that in the judgment of the Pittsburg State University Administration and Police and Public Safety constitutes a serious or continuing threat to members of the campus community, a campus-wide “timely warning” will be issued. Examples of such situations may include a sexual assault or a series of motor vehicle thefts in the area that merit a warning because they present a continuing threat to the campus community. Warnings will be communicated to students and employees via one or more of the methods discussed later in this section. Updates to the warnings will be provided as appropriate.

Anyone with information warranting a timely warning should immediately report the circumstances to:

- University Police and Public Safety, 620-235-4624

The University has communicated with local law enforcement asking them to notify the University if it receives reports or information warranting a timely warning.

Emergency Response

The University has an emergency management plan designed to ensure there is a timely and effective response in the event of a significant emergency or dangerous situation occurring on campus involving an immediate threat to the health or safety of members of the campus community. Such situations include, but are not limited to: tornadoes, bomb threats, chemical spills, disease outbreaks, fires, active shooters, etc. The University has communicated with local police requesting their cooperation in informing the University about situations reported to them that may warrant an emergency response.

Anyone with information warranting a timely warning should report the circumstances to PSU Police and Public Safety, by phone at (620) 235-4624 or in person at their office within Shirk Annex (lower level).

Students, staff and visitors are encouraged to notify the PSU Police and Public Safety Department at PSU Police and Public Safety Department of any emergency or potentially dangerous situation.

University Police and Public Safety and University Administration will access available sources of information from campus administrative staff and local authorities to confirm the existence of the danger and will be responsible for initiating the institution's response and for marshaling the appropriate local emergency response authorities for assistance. Depending on the nature of the emergency, other University departments may be involved in the confirmation process.

Once the emergency is confirmed and based on its nature, University Police and Public Safety and PSU Administration will consult to determine the appropriate segment or segments of the University community to be notified.

University Police and Public Safety and the PSU Administration will determine who should be notified, and will, without delay, and taking into account the safety of the community, determine the content of the notification and initiate the notification system, unless issuing a notification will, in the professional judgment of responsible authorities, compromise efforts to assist a victim or to contain, respond to or otherwise mitigate the emergency.

Depending on the segments of the campus the notification will target, the content of the notification may differ. When appropriate, the content of the notification will be determined in consultation with local authorities. Also, as appropriate, the notification will give guidance as to whether its recipients should shelter in place or evacuate their location.

The Executive Director of Police and Public Safety will direct the issuance of emergency notifications, which will be accomplished using one or more of methods discussed later in this section, depending on the nature of the threat and the segment of the campus community being threatened.

At the direction of University Police and Public Safety or PSU Administration, the Office of Creative and Strategic Communications may post notice on the university web site home page (www.pittstate.edu) and notify local media outlets in order that the larger community outside the campus will be aware of the emergency.

Testing & Documentation

The University's emergency response and evacuation plans will be tested at least annually. Documentation of the testing to include a description of the exercise, the date, time, and whether it was announced or unannounced, will be maintained in accordance with the University emergency policy and procedures.

The Executive Director of PSU Police and Public Safety maintains a record of these tests and training exercises, including a description of them, the dates and times they were held and an indication of whether they were announced or unannounced. In connection with at least one such test, the University will distribute to its students and employees information to remind them of the University's emergency response and evacuation procedures.

Missing Student Policy

Persons believed to be missing from the University community or students believed by University Housing and Residence Life staff to be missing, will be reported to University Police and Public Safety within 24 hours of the determination that they may be missing. If University Police and Public Safety are notified and determine the person who is subject of a missing person report has been missing, the confidential contact will be notified. Non-emancipated students under the age of 18 will have their parents contacted in the event that they are determined to be missing regardless of whom they might list as a confidential contact. University staff will contact University Police in the event of any report of a missing person from within the University Community and then will be instructed to contact their supervisory chain of command immediately.

Under federal law, each student living in university owned housing (residence halls) is provided the option to identify and confidentially register an individual to be contacted within 24 hours of a determination by University Police and Public Safety that the student is a missing person. Students have the ability to name such person when completing their housing and dining contract for the academic year. Students who want to make changes to their missing person information can contact the University Housing and Residence Life Office,

209 Horace Mann. (For students under 18 years of age, the university is required by law to contact the custodial parent).

A student’s confidential contact information will be accessible only by authorized campus officials, and it will only be disclosed to law enforcement personnel in furtherance of a missing student investigation.

After investigating a missing person report, University Police and Public Safety may make the determination the person who is subject of a missing person report has been missing, the confidential contact will be notified. Non-emancipated students under the age of 18 will have their parents contacted in the event that they are determined to be missing regardless of whom they might list as a confidential contact. University staff will contact University Police and Public Safety in the event of any report of a missing person from within the University Community and then will be instructed to contact their supervisory chain of command immediately.

Policies on Portable Appliances, Smoking and Open Flames

The use of open element cooking/heating units and/or the use of cooking fats and greases, candles or other open flames, is not allowed. Cooking with woks, toaster ovens, crock-pots, hot plates, open element, or any other cooking devices is forbidden. Cooking in rooms is prohibited except for microwave cooking and coffee pots. Students who set off residence hall fire alarm systems due to cooking/open flames in their rooms or residence hall kitchens may be subject to disciplinary action. Also, tampering with fire safety systems is prohibited and any such tampering may lead to appropriate disciplinary action

The University reserves the right to make periodic inspections of campus housing to ensure fire safety systems are operational and that the policy on prohibited items is being complied with. Prohibited items, if found, will be confiscated and donated or discarded without reimbursement.

Fire Evacuation Procedures

In the event of a fire, the University expects that all campus community members will evacuate by the nearest exit, closing doors and activating the fire alarm system (if one is nearby) as they leave. If circumstances permit at the time of the alarm, additional instructions will be given regarding where students and/or staff are to relocate.

In the event of a fire:

- Pull the nearest fire alarm.
- Exit the building.
- Call the University Police at 911 to report the fire, and give as much information as possible.

When an alarm sounds:

- Lock your room door.
- Wear shoes, take your keys, and carry or wear a coat.
- Don't panic—move quickly outside the building.
- DO NOT USE ELEVATORS. Use the exterior stairwells.

Fire Education and Training Programs

Fire safety education programs for all students living in on-campus student housing and all employees that have any association with on-campus student housing are held at the beginning of each academic year. These programs are designed to familiarize everyone with the fire safety system in each housing facility and to train everyone on the procedures to be followed in case there is a fire. Information regarding the university's fire safety policies and evacuation procedures are contained in the Guide to Hall Living (distributed individually to each resident of on-campus housing). During these programs, trainers emphasize that participating in fire drills is mandatory. Maps of each on-campus student housing facility that illustrate evacuation routes and fire alarm equipment locations are posted conspicuously on the back of each residence hall sleeping room door and evacuation procedures are posted in the commons area throughout each facility. Students with disabilities are given the option to have a "buddy" assigned to them.

As a part of pre-service training for residence hall staff, fire safety education and training is provided. Local fire authorities, as well as University Housing and Residence Life staff experienced in fire safety matters teach these sessions.

If a fire occurs, students are instructed to leave hazardous areas per the evacuation routes and get to a predetermined location before calling 911 for help. They are to remain in that location so that the University Housing and Residence Life staff and other emergency responder personnel can document that all occupants have left the building. RAs are instructed to pull the fire alarm as they are leaving the building if they can do so without risking their safety.

Reporting Fires

The University is required to disclose each year statistical data on all fires that occurred in on-campus student housing. When a fire alarm is pulled and/or the fire department responds to a fire, these incidents are captured. If you encounter a fire that presents an emergency situation, ensure your own safety and then please call 911.

There may also be instances when a fire is extinguished quickly and an alarm is not pulled or a response by the fire department was not necessary. It is important that these incidents be recorded as well. Therefore, if you are aware of such a fire, see evidence of one or hear about one, you should contact the Pittsburg State University Police and Public Safety at Pittsburg State University Police and Public Safety. When providing notification of a fire, give as much information as possible about the location, date, time and cause of the fire.

Plans for Future Improvements

University Housing and Residence Life is involved in continuous evaluation and improvement of on-campus residential facilities. Infrastructure systems, including those related to fire safety, are part of this evaluation and improvement efforts.
